

Student Insurance Program

Student accident insurance coverage is available through the school administration office on a self-supporting basis as a service to the students and is not to be included in the school insurance program.

Any student participating in athletics will have on file with the school administration office a statement signed by the parent releasing the school and the Board of Education from liability for injuries sustained during practice or athletic events. Each parent is charged with the responsibility of providing such insurance as is necessary to protect his own child and of notifying the school administration office of the policy number of such coverage.

Adopted: 11/22/77

Revised to conform with practice: date of manual adoption
