

## **Emergency Plans**

Advance planning for emergencies and disasters is essential to provide for the safety of students and staff should a threat to safety arise from fire or other causes. It also strengthens the morale of all concerned to know that preparedness plans exist and that students and staff have been trained in carrying them out.

Therefore, the superintendent shall cooperate with other appropriate agencies in the development of plans that meet state and local requirements for preparedness in case of fire, civil emergencies, tornadoes and other natural disasters.
