

## **Staff Health** (And Medical Examination Requirements)

Through its overall safety program and various policies pertaining to school personnel, the Board shall seek to ensure the safety of employees during working hours and assist them in the maintenance of good health. It shall encourage all its employees to maintain good health and practice good health habits.

Under the following circumstances, the Board may require medical examinations of its employees or applicants for employment. The district shall pay for all such medical examinations. Results of such examinations shall be maintained in separate medical files and not in the employee's personnel file and may be released only in limited circumstances.

### **Routine medical examinations**

School transportation vehicle operators shall be required to have a medical examination once every two years in accordance with applicable state and federal law.

### **Special examinations**

The Board recognizes that an individual's medical diagnosis is privileged information between the patient and medical professionals. However, whenever a staff member's medical condition is such that it interferes with the ability to perform required duties or there is an unacceptable risk to the health and safety of the employee or others, the district shall take necessary steps to evaluate the employee's condition and make appropriate employment decisions.

The Board may request physical examinations and/or mental health examinations of any employee at any time to determine if the employee has a physical and/or mental condition, disease or illness which may interfere with the employee's ability to perform required duties or which may pose an unacceptable risk to the health, safety or welfare of the employee or others. The school district shall select the medical professional to conduct such examination.

When the employee cannot perform the essential functions of the job with reasonable accommodation, or medical evidence establishes that the employee's condition poses a significant risk to the health, safety or welfare of the employee or others, the school district may suspend and/or terminate the employee in accordance with applicable policies and regulations and applicable law.

### **Readily-transmitted communicable diseases**

An employee with an acute, common communicable disease shall not report to work during the period of time when contagious/infectious. The district reserves the right to require a physician's statement prior to the employee's return to work.

An employee afflicted with a serious, readily-transmissible disease or condition shall be encouraged to report the existence of the condition or illness in case there are precautions that must be taken to protect the health of others.

## **Confidentiality**

In all instances, district personnel shall respect the individual's right to privacy and treat any information regarding the medical condition or medical history of an employee or applicant as confidential information. The superintendent shall develop procedures to ensure that all medical information will be held in strict confidence. Any school staff member who violates confidentiality shall be subject to appropriate disciplinary measures.
