MONTE VISTA SCHOOL DISTRICT

Inspiring the Pursuit of Excellence, *One Student at a Time!*

August 2016

Dear Parents/Guardians:

Welcome to the 2016-2017 school year! We are looking forward to a great year.

We believe that appropriate student conduct and effective student discipline are necessary for a productive and safe learning environment. The Colorado state legislature also emphasizes these concepts by requiring school districts to develop student conduct and discipline codes and distribute them at least once to each student in elementary, middle and high school. The 2016-2017 Policy Handbook represents our district's student conduct and discipline codes plus other policies important to both students and parents. The handbook reflects the latest legislative changes and provides the basis for individual school procedures.

Please read this information carefully and refer any questions to the appropriate school principal. Your suggestions are always welcome.

Parents are requested to sign the enclosed form indicating receipt of the publication. The form is retained in the student's file as documentation that the student and his/her parents have been informed of the district's policies.

Thank you for helping us maintain a safe and productive learning environment in our schools.

Sincerely,

Robert A. Webb
Superintendent

Introduction

Our schools go to great lengths to teach conflict resolution and responsible decision-making. We start at the elementary levels with direct instruction and then follow up at the secondary levels with peer mediation, and individual counseling. The student conduct and discipline code also reinforces these concepts and, although it may seem punitive, its true purpose is to help children learn correct principles at a young age.

Most children who violate the code will receive instruction from their teacher and/or principal and the matter ends there. Suspension from school for 1 to 10 days may be warranted for more serious violations. Expulsion for the remainder of either the semester or school year is mandated by law in certain other situations. (See the inside of this publication for specifics.)

Parents will be contacted in all instances involving formal discipline or possible suspension. As an alternative to suspension, there may be an opportunity for the parent to attend class with the child. Parents must meet with school officials after the second suspension to prepare a remedial discipline plan. Students may make up work missed during suspension; however, no grade higher than "C" may be earned.

The superintendent will be notified if the student violates the terms of the remedial discipline plan and receives a third suspension. A third suspension will mandate an expulsion hearing with the superintendent. State law says that any student suspended from school three times will be declared "habitually disruptive" and expelled from school.

Any parent or student may appeal an expulsion decision to the board of education within time limits established in policy. Parents of expelled students will be informed of continuing education programs available for their children.

In accordance with mandates of the *Elementary and Secondary Education Act*, schools that receive Title I funds (Marsh School and Bill Metz Elementary) are required to notify parents that they may request, and the school district will provide in a timely manner, information regarding the professional qualifications of the student's classroom teachers, including the following:

- **Whether the teacher has met state qualifications and licensing criteria in the grade levels and subject areas in which the teacher provides instruction.**
- **Whether the teacher is teaching under emergency or other provisional status through which state qualification or licensing criteria has been waived.**
- **The baccalaureate degree major of the teacher and any other graduate certification or degree held by the teacher, and the field of discipline of the certification or degree.**
- **Whether the child is provided services by paraprofessionals, and, if so, their qualifications.**

Student Conduct

It is the intention of the Board of Education that the district's schools help students achieve maximum development of individual knowledge, skills and competence and that they learn behavior patterns which will enable them to be responsible, contributing members of society.

The Board, in accordance with applicable law, has adopted a written student conduct and discipline code based upon the principle that every student is expected to follow accepted rules of conduct and to show respect for and to obey persons in authority. The code emphasizes that certain behavior, especially behavior that disrupts the classroom, is unacceptable and may result in disciplinary action. The code shall be enforced uniformly, fairly and consistently for all students.

All Board-adopted policies and Board-approved regulations containing the letters "JIC" in the file name constitute the conduct section of the legally required code.

The Board shall consult with parents/guardians, students, teachers, administrators and other community members in the development and review of the conduct and discipline code.

The conduct and discipline code shall be provided to each student upon enrollment in elementary, middle and high school. The district shall take reasonable measures to ensure each student is familiar with the code. Copies shall be posted or kept on file in each school of the district. In addition, any significant change in the code shall be provided to students and posted in each school.

In all instances, students shall be expected to conduct themselves in keeping with their level of maturity, acting with due regard for the supervisory authority vested by the Board in all district employees, the educational purpose underlying all school activities, the widely shared use of district property, and the rights and welfare of other students and staff. All employees of the district shall be expected to share the responsibility for supervising the behavior of students and for seeing that they abide by the conduct and discipline code.

Student Dress Code

A safe and disciplined learning environment is essential to a quality educational program. District-wide standards on student attire are intended to help students concentrate on schoolwork, reduce discipline problems, and improve school order and safety. The Board recognizes that students have a right to express themselves through dress and personal appearance; however, students shall not wear

apparel that is deemed disruptive or potentially disruptive to the classroom environment or to the maintenance of a safe and orderly school.

Any student deemed in violation of the dress code shall be required to change into appropriate clothing or make arrangements to have appropriate clothing brought to school immediately. In this case, there shall be no further penalty.

If the student cannot promptly obtain appropriate clothing or if the school has to provide proper clothing, on the first offense, the student shall be given a written warning and an administrator shall notify the student's parents/guardians. On the second offense, the student shall remain in the administrative office for the day and do schoolwork and a conference with parents/guardians shall be held. On the third offense, the student may be subject to suspension or other disciplinary action in accordance with Board policy concerning student suspensions, expulsions and other disciplinary interventions.

Unacceptable Items

The following items are deemed disruptive to the classroom environment or to the maintenance of a safe and orderly school and are not acceptable in school buildings, on school grounds, or at school activities:

1. Shorts, dresses, skirts or other similar clothing shorter than mid-thigh length
2. Sunglasses and/or hats worn inside the building
3. Inappropriately sheer, tight or low-cut clothing (e.g., midribs, halter tops, backless clothing, tube tops, garments made of fishnet, mesh or similar material, muscle tops, etc.) that bare or expose traditionally private parts of the body including, but not limited to, the stomach, buttocks, back and breasts
4. Tank tops or other similar clothing with straps narrower than 1.5 inches in width
5. Any clothing, paraphernalia, grooming, jewelry, hair coloring, accessories, or body adornments that are or contain any advertisement, symbols, words, slogans, patches, or pictures that:
 - Refer to drugs, tobacco, alcohol, or weapons
 - Are of a sexual nature
 - By virtue of color, arrangement, trademark, or other attribute denote membership in gangs which advocate drug use, violence, or disruptive behavior
 - Are obscene, profane, vulgar, lewd, or legally libelous
 - Threaten the safety or welfare of any person
 - Promote any activity prohibited by the student code of conduct
 - Otherwise disrupt the teaching-learning process

Exceptions

Appropriate athletic clothing may be worn in physical education classes. Clothing normally worn when participating in school-sponsored extra-curricular or sports activities (such as cheerleading uniforms and the like) may be worn to school when approved by the sponsor or coach.

Building principals, in conjunction with the school accountability committee, may develop and adopt school-specific dress codes that are consistent with this policy.

Student Conduct in School Vehicles

The privilege of riding in a school vehicle is contingent upon a student's good behavior and observance of the student code of conduct and established regulations for student conduct both at designated school vehicle stops and on-board school vehicles.

The operator of a school vehicle shall be responsible for safety of the students in the vehicle, both during the ride and while students are entering or leaving the vehicle. Students shall be required to conform to all rules concerning discipline, safety and behavior while riding in the school vehicle. It is the vehicle operator's duty to notify the supervisor of transportation and the principal of the school involved if any student persists in violating the established rules of conduct.

After due warning has been given to the student and to the student's parents/guardians, the principal may withhold from the student the privilege of riding in the school vehicle. Violation of district policies and regulations while in a school vehicle may also result in the student's suspension or expulsion from school, in accordance with Board policy concerning student suspensions, expulsions and other disciplinary interventions.

Violent and Aggressive Behavior

The Board recognizes there are certain behaviors that, if tolerated, would quickly destroy the type of learning environment to which the students and staff of the district are entitled. These behaviors, categorized as violent or aggressive, will not be tolerated and shall result in immediate action being taken by the district.

Students exhibiting violent or aggressive behavior or warning signs of future violent or aggressive behavior shall be subject to appropriate disciplinary action including suspension and/or expulsion in accordance with Board policy concerning student suspensions,

expulsions and other disciplinary interventions. As appropriate and in accordance with applicable law, students may also be referred to law enforcement authorities. At the district's discretion and when appropriate, the student may receive appropriate intervention designed to address the problem behavior.

Students shall be taught to recognize the warning signs of violent and aggressive behavior and shall report questionable behavior or potentially violent situations to appropriate school officials. All reports shall be taken seriously.

Acts of violence and aggression shall be documented and communicated by the staff to the building principal and the superintendent. The immediate involvement of the student's parents/guardians is also essential.

An act of violence and aggression is any expression, direct or indirect, verbal or behavioral, of intent to inflict harm, injury or damage to persons or property. A threat of violence and aggression carries with it implied notions of risk of violence and a probability of harm or injury.

The following behaviors are defined as violent and aggressive:

1. Possession, threat with or use of a dangerous weapon — as described in the Board's weapons policy.
2. Physical assault — the act of striking or touching a person or that person's property with a part of the body or with any object with the intent of causing hurt or harm.

4. Intimidation — an act intended to frighten or coerce someone into submission or obedience.
5. Extortion — the use of verbal or physical coercion in order to obtain financial or material gain from others.
6. Bullying — as described in the Board's policy on bullying prevention and education.

Bullying Prevention and Education

The Board of Education supports a secure school climate, conducive to teaching and learning that is free from threat, harassment and any type of bullying behavior. The purpose of this policy is to promote consistency of approach and to help create a climate in which all types of bullying are regarded as unacceptable.

Bullying is the use of coercion or intimidation to obtain control over another person or to cause physical, mental or emotional harm to another person. Clearly defined bullying contains three elements: it is intentional, repeated over time and involves a power imbalance. Bullying can occur through written, verbal or electronically transmitted expression or by means of a physical act or gesture.

Bullying is prohibited against any student for any reason, including but not limited to any such behavior that is directed toward a student on the basis of his or her academic performance or any basis protected by federal and state law, including disability, race, creed, color, sex, sexual orientation, national origin, religion, ancestry or the need for special education services, whether such characteristic(s) is actual or perceived. Bullying is prohibited on district property, at district or school-sanctioned activities and events, when students are being transported in any vehicle dispatched by the district or one of its schools, or off school property when such conduct has a nexus to school or any district curricular or non-curricular activity or event.

A student who engages in any act of bullying and/or a student who takes any retaliatory action against a student who reports in good faith an incident of bullying, is subject to appropriate disciplinary action including but not limited to suspension, expulsion and/or referral to law enforcement authorities. The severity and pattern, if any, of the bullying behavior shall be taken into consideration when disciplinary decisions are made. Bullying behavior that constitutes unlawful discrimination or harassment shall be subject to investigation and discipline under related Board policies and procedures. Students targeted by bullying may have additional rights and protections under Board policies when such bullying behavior constitutes unlawful discrimination or harassment.

The superintendent shall develop a comprehensive program to address bullying at all school levels. The program shall be aimed toward accomplishing the following goals:

1. To send a clear message to students, staff, parents and community members that bullying and retaliation against a student who reports bullying will not be tolerated.
2. To train staff and students in taking pro-active steps to prevent bullying from occurring.
3. To implement procedures for immediate intervention, investigation, and confrontation of students engaged in bullying behavior.

4. To initiate efforts to change the behavior of students engaged in bullying behaviors through re-education on acceptable behavior, discussions, counseling, and appropriate negative consequences.
5. To foster a productive partnership with parents and community members in order to help maintain a bully-free environment.
6. To support victims of bullying by means of individual and peer counseling.
7. To help develop peer support networks, social skills and confidence for all students.
8. To recognize and praise positive, supportive behaviors of students toward one another on a regular basis.

School-Related Student Publications

School-sponsored publications are a public forum for students as well as an educational activity through which students can gain experience in reporting, writing, editing and understanding responsible journalism. Because the Board recognizes creative student expression as an educational benefit of the school experience, it encourages freedom of comment, both oral and written, in a school setting with a degree of order in which proper learning can take place.

The Board encourages students to express their views in school-sponsored publications and to observe rules for responsible journalism. This means expression which is false or obscene, libelous, slanderous or defamatory under state law; presents a clear and present danger of the commission of unlawful acts, violation of school rules or material and substantial disruption of the orderly operation of the school; violates the privacy rights of others; or threatens violence to property or persons shall not be permitted.

Student editors of school-sponsored publications shall be responsible for determining the news, opinion and advertising content of their publications subject to the limitations of this policy and state law. The publications advisor within each school shall be responsible for supervising the production of school-sponsored publications and for teaching and encouraging free and responsible expression and professional standards of journalism.

The publications advisor has authority to establish or limit writing assignments for students working with publications and to otherwise direct and control the learning experience that publications are intended to provide when participation in a school-sponsored publication is part of a school class or activity for which grades or school credits are given.

All school-sponsored publications shall contain a disclaimer that expression made by students in the exercise of freedom of speech or freedom of the press is not an expression of Board policy. The school district and employees are provided immunity from civil or criminal penalties for any expression made or published by students.

The superintendent shall develop, for approval by the Board, a written official school publications code which shall include:

1. A statement of the purposes of official school publications.
2. Responsibilities of official school publications' advisors and student editors.
3. A list of prohibited materials.
4. Reasonable provisions for the time, place and manner of distributing school-sponsored student publications within the school district's jurisdiction.
5. Procedures for resolving differences.

The publications code shall be distributed to all students and teachers at the beginning of each school year.

School-Related Student Publications

(School Publications Code)

1. Purpose

As stated in Board policy, school-sponsored publications are a public forum for students as well as an educational activity through which students can gain experience in reporting, writing, editing and understanding responsible journalism. Content of school publications should reflect all areas of student interest, including topics about which there may be dissent or controversy.

2. Responsibilities of student journalists

In addition to the responsibilities set forth in the accompanying Board policy, students who work on official student publications will:

- a. Rewrite material, as required by the faculty advisers to improve sentence structure, grammar, spelling and punctuation.
- b. Check and verify all facts and verify the accuracy of all quotations.
- c. In the case of editorials or letters to the editor concerning controversial issues, provide space for rebuttal comments and opinions.

If the Board determines that advertising is allowed in the publication, the student editor will determine the content of any advertisements.

3. Responsibilities of publication advisors

In addition to the responsibilities set forth in the accompanying Board policy, the publication advisor will exercise general supervision over all activities to create a proper learning environment.

4. Prohibited materials

- a. Students may not publish or distribute material that is obscene. "Obscene" means:
 - (1) The average person applying contemporary community standards finds that the publication, taken as a whole, appeals to a minor's prurient interest in sex.
 - (2) The publication depicts or describes in a patently offensive way sexual conduct such as ultimate sexual acts (normal or perverted), masturbation, excretory functions, or lewd exhibition of genitals.
 - (3) The work, taken as a whole, lacks serious literary, artistic, political or scientific value.
- b. Students may not publish expression that is libelous, slanderous or defamatory under state law. "Libelous" is defined as a false and unprivileged statement about a person that injures the individual's reputation in the community.
- c. Expression that is false as to any person who is not a public figure or involved in a matter of public concern is prohibited. If the allegedly libeled individual is a "public figure or official," the official must show that the false statement was published with actual malice, as the terms are defined in law.

Under the "fair comment rule," a student is free to express an opinion on matters of public interest. Specifically, a student enjoys a privilege to criticize the performance of teachers, administrators, school officials and other school employees.

- d. Expression which presents a clear and present danger of the commission of unlawful acts, violation of lawful school regulations, or material and substantial disruption of the orderly
- e. operation of the school, violates the rights of others to privacy, or threatens violence to property or persons is prohibited.

In order for a student publication to be considered disruptive, there must exist specific facts upon which it would be reasonable to forecast that a clear and present likelihood of an immediate, substantial material disruption to normal school activity would occur if the material were distributed. Undifferentiated fear or apprehension of disturbance is not enough; school administrators must be able to show affirmatively substantial facts that reasonably support a forecast of likely disruption. Material that stimulates heated discussion or debate does not constitute the type of disruption that is prohibited.

5. Time, place and manner restrictions

The principal will coordinate with the publications advisor on the time, place and manner of distributing school-sponsored publications to reduce any conflict with school instructional time and/or reduce any disruption of the orderly operation of the school which might be caused by the distribution of school-sponsored publications.

6. Procedures for resolving differences

Student editors will work first with the publications advisor to resolve any differences. If the problem cannot be resolved at this level, the student editors and/or the publications advisor may work with the principal to resolve any problems. If the problem is not resolved at the principal level, the student editors and/or the publications advisor may work with the superintendent to resolve any problem. If the problem is not resolved at the superintendency level, the student editors and/or publications advisor may work with the Board of Education. If the problem is not resolved at the Board level, the student editors and/or publications advisor may seek relief through the judicial system.

7. Legal advice

- a. If in the opinion of the student editor, student editorial staff or faculty advisor, material proposed for publication may be "obscene," "libelous," or "cause a substantial disruption of school activities," the legal opinion of the school district's attorney should be sought if authorized by the principal.
- b. Legal fees charged in connection with this consultation will be paid by the Board.
- c. The final decision of whether the material is to be published will be left to the student editor.

Student Distribution of Noncurricular Materials

To understand Constitutional values such as the right to free speech, students must not only study such principles but also have an opportunity to put them into practice. However, there are limitations on the right of student free speech in the school setting that have been upheld by the courts because of the unique nature of the school community.

It is the goal of this policy to strike a necessary balance between a student's right of free speech and the school's need to maintain an orderly and safe school environment which respects the rights of all students on school grounds and during school-sponsored activities.

Students shall be allowed to distribute noncurricular written materials on school property subject to restrictions on time, place and manner of distribution set out in the accompanying regulations and the prohibitions set out below and in state law.

Any material in any media containing expression which is obscene, pornographic, sexually explicit, libelous, slanderous or defamatory shall be prohibited. Students shall not distribute any material which advocates commission of unlawful acts or violation of Board or district policy and/or regulations, violates another person's right to privacy, causes a material and substantial disruption of the orderly operation of the school, or threatens violence to property or persons. Also prohibited are materials that contain insulting words or words the very expression of which injures or harasses other people and which are inconsistent with the shared values of a civilized social order (e.g. threats of violence or defamation of a person's race, religion, ethnicity, national origin, etc.).

Students who distribute materials in violation of this policy may be subject to appropriate disciplinary action, including suspension and/or expulsion.

Student Distribution of Noncurricular Materials

Students who wish to distribute noncurricular printed materials on school property or in conjunction with a school activity must notify the principal a minimum of one day in advance so that details may be worked out regarding the time, place and manner of distribution.

Students do not have to produce an advance copy of the materials that will be distributed for the principal's review. However, materials which are distributed on school grounds containing information prohibited by Board policy and/or materials that create a significant or substantial disruption, damage to persons or property, or threaten violence to property or persons in the judgment of school officials, may subject the responsible students to disciplinary action following distribution.

The following restrictions will apply to all requests for distribution of noncurricular materials by students:

1. **Place.** Distribution of printed materials must be made at places within the school or on school grounds as designated by the principal except that in no event may such materials be distributed in any classroom of any building then being occupied by a regularly-scheduled class.
2. **Time.** Distribution may be made one-half hour before school and/or during regularly scheduled lunch periods and/or 15 minutes after the close of school. Any other times during the school day are considered to be disruptive of normal school activities.
3. **Littering.** All distributed items discarded in school or on school grounds must be removed by the persons distributing such items.
4. **Manner.** No student may in any way be compelled or coerced to accept any noncurricular materials. In the alternative, no school official or student may interfere with the distribution of approved materials.

Secret Societies/Gang Activity

The Board of Education desires to keep district schools and students free from the threats or harmful influence of any groups or gangs which advocate drug use, violence or disruptive behavior. The principal or designee shall maintain continual, visible supervision of school premises, school vehicles and school-related activities to deter gang intimidation of students and confrontations between members of different gangs.

The superintendent or designee shall establish open lines of communication with local law enforcement authorities so as to share information and provide mutual support in this effort.

The superintendent or designee shall provide inservice training to help staff members identify gangs and gang symbols, recognize early manifestations of disruptive activities and respond appropriately to gang behavior. Staff members shall be informed about conflict management techniques and alerted to intervention measures and community resources which may help students.

Gang symbols

The Board prohibits the presence on school premises, in school vehicles and at school-related activities of any apparel, jewelry, accessory, notebook or manner of grooming which by virtue of its color, arrangement, trademark or any other attribute denotes membership in gangs which advocate drug use, violence or disruptive behavior. This policy shall be applied at the principal's discretion after consultation with the superintendent or designee as the need for it arises at individual school sites.

Prevention education

The Board realizes that many students become involved in gangs without understanding the consequences of gang membership. Early intervention is a key component of efforts to break the cycle of gang membership. Therefore gang violence prevention education in the schools shall start with students in third grade.

Community programs offered for staff, parents/guardians, churches, city officials, business leaders and the media will address:

1. The scope and nature of local gang problems
2. Ways that each segment of the community can help to alleviate these problems

Intervention measures

Staff members will make every effort to assimilate gang-oriented students into the academic, extracurricular and social mainstream and into work experience programs. To this end:

1. Staff members will be provided with the names of known gang members.
2. Insofar as possible, classroom teachers will assign individual gang-oriented students to cooperative learning groups in which they may work toward common goals with students who are not members of their gang.
3. Students who seek help in rejecting gang associations may be referred to community based gang suppression and prevention organizations.

It shall be a violation of Board policy and considered to be behavior which is detrimental to the welfare or safety of other students or school personnel for any student to possess, use, sell, distribute or exchange or to be under the influence of alcohol, drugs or other controlled substances. The unlawful possession or use of alcohol or controlled substances is wrong and harmful to students.

For purposes of this policy, controlled substances include but are not limited to narcotic drugs, hallucinogenic or mind-altering drugs or substances, amphetamines, barbiturates, stimulants, depressants, marijuana, anabolic steroids, any other controlled substances as defined in law, or any prescription or nonprescription drug, medication, vitamin or other chemical substances not taken in accordance with the Board policy and regulations on administering medications to students.

Drug and Alcohol Involvement by Students

In accordance with the accompanying policy, the following procedures are established for addressing alcohol- or drug-related misconduct. These procedures will supplement and complement authority conferred elsewhere by Board policy and will not be deemed to limit or suspend such other authority.

Use

1. When a student is suspected of use, the person having the suspicion shall notify the principal or designee. Notification must include reasons for such suspicion (observed use, unusual behavior, etc.). The principal or designee will conduct a check of the suspected student and collect data. This action shall comply with the Board policy on investigations and searches.
 - a. If information is not sufficient to warrant further action, the principal or designee may have a personal conference with the student expressing awareness and concern.
 - b. If information warrants, the student's parent/guardian will be requested to attend a conference at school. The conference may include sharing the data collected, explaining consequences of involvement with drugs/alcohol, developing a plan of action, and offering the student's parent or guardian general information and resources related to substance abuse.
2. When necessary, emergency health and safety care will be provided and any procedural or disciplinary issues postponed until the student's immediate needs are treated. While waiting for the student's parent/guardian or further medical aid, the student will not be left alone but placed in a quiet situation where the student will remain under observation.

Possession, distribution and exchange

Students who possess or are involved in any distribution or exchange of alcohol, drugs, other controlled substances or drug-containing or drug-related paraphernalia in violation of Board policy will be handled in the following manner:

1. A staff member who comes in contact with evidence and/or contraband shall notify the principal or designee immediately.
2. A staff member who has reasonable cause to believe that a student possesses or is involved in any distribution or exchange of alcohol, any controlled substance or drug-containing or drug-related paraphernalia in violation of Board policy will request that the student accompany him or her to the principal or designee. If the student refuses, the staff member will notify the principal or designee immediately.
3. The principal or designee will undertake investigation and search procedures in accordance with Board policy.
4. The principal or designee will place any evidence in an envelope or alternative container as necessary which will be sealed, dated and initialed by the individual who originally obtained the materials and by the principal or designee. The evidence then will be placed in the school safe.
5. The principal or designee shall refer the student to appropriate law enforcement officials in accordance with applicable law. A mutual decision will be made as to retention of the contraband by the school or testing by the authorities.
6. If information warrants, the student's parent/guardian will be requested to attend a conference at school. The conference may include sharing the data collected, explaining consequences of involvement with drugs/alcohol, developing a plan of action, and offering the parent or guardian general information and resources related to substance abuse.

Weapons in School

The Board of Education determines that student possession, use and/or threatened use of a weapon is detrimental to the welfare and safety of the students and school personnel within the district.

Dangerous weapons

Using, possessing or threatening to use a dangerous weapon on district property, when being transported in vehicles dispatched by the district or one of its schools, during a school-sponsored or district-sponsored activity or event, and off school property when the conduct has a reasonable connection to school or any district curricular or non-curricular event without the authorization of the school or the school district is prohibited. An exception to this policy may be made for students participating in an authorized extracurricular activity or team involving the use of firearms.

As used in this policy, "dangerous weapon" means:

- a. A firearm.
- b. Any pellet, BB gun or other device, whether operational or not, designed to propel projectiles by spring action or compressed air.
- c. A fixed blade knife with a blade that exceeds three inches in length.
- d. A spring-loaded knife or a pocket knife with a blade exceeding three and one-half inches in length.
- e. Any object, device, instrument, material, or substance, whether animate or inanimate, that is used or intended to be used to inflict death or serious bodily injury including, but not limited to, a slingshot, bludgeon, nun chucks, brass knuckles or artificial knuckles of any kind.

Students who use, possess or threaten to use a dangerous weapon in violation of this policy shall be subject to disciplinary action, including suspension and/or expulsion, in accordance with Board policy concerning student suspensions, expulsions and other disciplinary interventions.

In accordance with federal law, expulsion shall be mandatory for no less than one full calendar year for a student who is determined to have brought a firearm to or possessed a firearm at school in violation of this policy. The superintendent may modify the length of this federal requirement for expulsion on a case-by-case basis. Such modification shall be in writing.

Firearm facsimiles

Carrying, using, actively displaying or threatening with the use of a firearm facsimile that could reasonably be mistaken for an actual firearm on district property, when being transported in vehicles dispatched by the district or one of its schools, during a school-sponsored or district-sponsored activity or event, and off school property when such conduct has a reasonable connection to school or any district curricular or non-curricular event without the authorization of the school or school district is prohibited. Students who violate this policy provision may be subject to disciplinary action, including but not limited to suspension and/or expulsion, in accordance with Board policy concerning student suspensions, expulsions and other disciplinary interventions.

A student may seek prior authorization from the building principal to carry, bring, use or possess a firearm facsimile that could reasonably be mistaken for an actual firearm on school property for purposes of a school-related or non-school related activity. A student's failure to obtain such prior authorization is a violation of this policy provision and may result in disciplinary action, including but not limited to suspension and/or expulsion, in accordance with Board policy concerning student suspensions, expulsions and other disciplinary interventions. The principal's decision to deny or permit a student to carry, bring, use or possess a firearm facsimile that could reasonably be mistaken for an actual firearm on school property shall be final.

School administrators shall consider violations of this policy provision on a case-by-case basis to determine whether suspension, expulsion or any other disciplinary action is appropriate based upon the individual facts and circumstances involved.

Local restrictions

The Board of Education determines that extra precautions are important and necessary to provide for student safety. Therefore, the using, possessing or threatening to use any *knife*, regardless of the length of the blade, on district property, when being transported in vehicles dispatched by the district or one of its schools, during a school-sponsored or district-sponsored activity or event, and off school property when the conduct has a reasonable connection to school or any district curricular or non-curricular event without authorization of the school or school district is prohibited. Students who violate this policy provision shall be subject to disciplinary action, including suspension and/or expulsion, in accordance with Board policy concerning student suspensions, expulsions and other disciplinary interventions.

Recordkeeping

The district shall maintain records which describe the circumstances involving expulsions of students who bring weapons to school including the name of the school, the number of students expelled and the types of weapons involved as required by law.

Referral to law enforcement

In accordance with applicable law, school personnel shall refer any student who brings a firearm or weapon to school without authorization of the school or the school district to law enforcement.

Student Use of Electronic Communication Devices

The Board of Education recognizes that electronic communication devices can play a vital communication role during emergency situations. However, ordinary use of electronic communication devices in school situations disrupts and interferes with the educational process and is not acceptable. For purposes of this policy, "electronic communication devices" include cell phones, beepers, pagers, walkie-talkies, and any other telecommunications device that emits an audible signal, vibrates, displays a message, or otherwise summons or delivers a communication to the possessor (e.g., Blackberry, Palm Pilot, etc.)

Elementary and middle school students may carry electronic communication devices but these devices must be turned off inside school buildings, on school buses, at school-sponsored activities and on field trips. In these locations, electronic communication devices may be used only during emergencies. For purposes of this policy, "emergency" shall mean an actual or imminent threat to public health or safety, which may result in loss of life, injury or property damage.

For high school students, the Board recognizes that cell phones and pagers can often play a vital communications role during emergency situations. However, the ordinary use of camera phones, video phones, cell phones, pagers, and other personal electronic communication devices can be disruptive to the educational process and is not acceptable. High school students may possess and use cell phones during passing periods, breaks, and the lunch period. These devices must be turned off during class time and those times when organized activities are being held by a teacher/teachers (e.g. assemblies, field trips) without express teacher permission. If a student desires to exit the class during the class period, the student must surrender the electronic device to the teacher. Upon return to the classroom, the device will be returned. Violations of the above rule will result in confiscation of the electronic device and its subsequent transfer to the school office.

Electronic communication devices with cameras are prohibited in locker rooms, bathrooms, or other locations where such operation may violate the privacy rights of another person.

It is the student's responsibility to ensure that the device is turned off and out of sight during unauthorized times. Violation of this policy and/or use that violates any other district policy shall result in disciplinary measures and confiscation of the electronic communication device. Confiscated devices shall be returned to the student only after a conference with the parent/guardian, student and school personnel. The building principal or designee may also refer the matter to law enforcement, as appropriate.

The district shall not be responsible for loss, theft or destruction of electronic communication devices brought onto school property.

Student Interviews, Interrogations, Searches and Arrests

The Board of Education seeks to maintain a climate in the schools which is conducive to learning and protective of the safety and welfare of staff and students. To achieve this goal, it may be necessary for school personnel to search the person and/or the personal property of the student and to seize any property deemed injurious or detrimental to the safety and welfare of students and staff.

Interviews by school administrators

When a violation of Board policy or school rules occurs, the principal or designee may question potential student victims and witnesses without prior consent of the student's parent/guardian. If a school official is investigating a report of child abuse and the suspected perpetrator is a member of the student's family, no contact with the student's family will be made. In situations where a student is suspected of violating Board policies or school rules, the principal or designee may **interview** the suspected student if the school official has reasonable grounds to suspect that such a violation has occurred. The nature and extent of the questioning must be reasonably related to the objectives of the questioning. If the student denies any involvement or culpability, the student will have the opportunity to present his or her side of the story, orally or in writing.

Searches conducted by school personnel

School personnel may search a student and/or the student's personal property while on school premises or during a school activity in accordance with this policy and may seize any illegal, unauthorized or contraband materials. Whenever possible, the student shall be informed of the reason(s) for conducting the search and the student's permission to perform the search shall be requested. A student's failure to cooperate with school officials conducting a search shall be considered grounds for disciplinary action. An administrative

report shall be prepared by the school official conducting a search explaining the reasons for the search, the results and the names of any witnesses to the search.

Search of school property

School lockers, desks and other storage areas are school property and remain at all times under the control of the school. All such lockers, desks and other storage areas, as well as their contents, are subject to inspection at any time, with or without notice. Students shall assume full responsibility for the security of their lockers and/or other storage areas in the manner approved by the administration. Students shall be responsible for whatever is contained in desks and lockers assigned to them by the school, as well as for any loss or damage relating to the contents of such desks and lockers.

Search of the student's person or personal effects

The principal or designee may search the person of a student or a student's personal effects such as a purse, backpack, book bag, or briefcase on school property or at school-sponsored events or activities if the school official has reasonable grounds to suspect that the search will uncover:

- a. Evidence of a violation of Board and/or district policies, school rules, or federal, state, or local laws.
- b. Anything which, because of its presence, presents an immediate danger of physical harm or illness to any person.

Search of the person shall be limited to the student's pockets, any object in the student's possession such as a purse, backpack, book bag, or briefcase, and a "pat down" of the exterior of the student's clothing.

The extent of the search of a student's person or personal effects, as well as the means to conduct the search, must be reasonably related to the objectives of the search and the nature of the suspected violation. Additionally, school officials conducting the search shall be respectful of privacy considerations, in light of the sex and age of the student.

Searches of the person shall be conducted out of the presence of other students and as privately as possible by a person of the same sex as the student being searched. At least one person of the same sex as the student being searched shall witness but not participate in the search.

Searches of a student's person and/or personal effects may be conducted without the prior consent of the student's parent/guardian. However, the parent/guardian of any student searched shall be notified of the search as soon as reasonably possible.

Searches of the person which may require removal of clothing other than a coat or jacket shall be referred to a law enforcement officer. School personnel shall not participate in such searches.

Seizure of items

Anything found in the course of a search conducted by school officials which is evidence of a violation of law or Board policy or school rules or which by its presence presents an immediate danger of physical harm may be:

1. Seized and offered as evidence in any suspension or expulsion proceeding. Such material shall be kept in a secure place by the principal until it is presented at the hearing.
2. Returned to the student or the parent/guardian.
3. Turned over to a law enforcement officer in accordance with this policy.

Law enforcement officers' involvement

Interrogations and interviews

When law enforcement officials request permission to question students when students are in school or participating in school activities, the principal or designee shall ascertain that the law enforcement officer has proper identification. Except when law enforcement officers have a warrant or other court order, or when an emergency or other exigent circumstances exist, such interrogations and interviews are discouraged during students' class time. It is the responsibility of the law enforcement officer interviewing student witnesses or interrogating student suspects to assure compliance with all applicable procedural safeguards. Upon request by law enforcement to interview a student witness or interrogate a student suspect, school officials shall make an effort to notify the student's parent/guardian, except in cases involving investigation of reported child abuse where the suspected perpetrator is a member of the student's family, when law enforcement has a court order directing that the student's parent/guardian not be notified, or when an emergency or other exigent circumstances exist. However, whether or not to postpone the interview or interrogation until the parent/guardian arrives is the law enforcement officer's decision.

Search and seizure

The principal or designee may request a search on school premises be conducted by a law enforcement officer. When law enforcement officers respond to such a request, no school employee shall assist or otherwise participate in the search. It is expected that searches by law enforcement will be conducted in accordance with the requirements of applicable law.

Custody and/or arrest

Students will be released to law enforcement officers if the student has been placed under arrest or if the student's parent/guardian and the student consent to such release. When a student is removed from school by law enforcement officers for any reason, school officials will make reasonable efforts to notify the student's parent/guardian.

It is expected that all procedural safeguards prescribed by law are followed by law enforcement officers conducting student arrests. However, district staff is not responsible for an officer's legal compliance when arresting a student.

Parking Lot Searches

The privilege of bringing a student-operated motor vehicle on to school premises is conditioned on consent by the student driver to allow search of the vehicle when there is reasonable suspicion that the search will yield evidence of contraband.

Refusal by a student, parent/guardian, or owner of the vehicle to allow access to a motor vehicle on school premises at the time of a request to search the vehicle, shall be cause for termination of the privilege of bringing the vehicle on to school premises, without further hearing. Refusal to submit to search also may result in disciplinary action and notification of law enforcement officials.

Routine patrolling of student parking lots and inspection of the outside of student automobiles shall be permitted at all times.

Student Organizations (Secondary Schools)

Secondary schools in the district may encourage students to broaden their knowledge and citizenship by permitting the formation of clubs or other groups that relate to subject matter covered by the curriculum. Such organizations shall operate within the framework of state statutes. Board policy, administrative rules and the parameters of the learning program.

Each building principal shall develop general guidelines for the establishment and operation of student organizations within the particular school. Among other provisions, such guidelines shall require the approval of the principal prior to the formation of any club or organization in a school and the assignment of at least one faculty adviser to each approved student organization.

All student organizations are required to open membership to all interested and/or eligible students. Fraternities, sororities and/or secret societies shall not receive recognition in any manner under this policy.

All forms of hazing in initiations shall be prohibited in a student organization. No initiation shall be held for a student organization which will bring criticism to the school system or be degrading to the student.

The faculty adviser must attend every meeting of the student organization whether conducted on school premises or at another location.

The principal is responsible for determining that the purpose of a student organization is related to the curriculum. In the event that the principal denies a group the right to organize and conduct meetings as a curriculum-related student organization, then students may seek permission to meet as a noncurricular student organization in accordance with policy JJA-2.

Student Organizations – Open Forum (Secondary Schools)

In addition to clubs and groups related to the curriculum, students in secondary schools (grades 7-12) in this district shall be permitted to organize and conduct meetings of non-curriculum-related student clubs or other groups to pursue specialized activities outside the classroom. Such groups shall not be considered school-sponsored student organizations nor be given all the privileges afforded to school-sponsored organizations.

Students may conduct meetings under this policy on school premises only during non-instructional time so that meetings do not interfere with the orderly conduct of the educational activities of the school. Meetings of noncurricular student groups must be scheduled, organized and conducted within the guidelines established by this policy and accompanying regulations.

For purposes of this policy, "non-instructional time" means time set aside by each school before actual classroom instruction begins or after actual classroom instruction ends.

Requests for permission to conduct a noncurricular student meeting must originate from a student or groups of students. Only students will be allowed to direct, conduct or control the activities of a non-curricular student group.

All noncurricular student groups meeting on school premises are required to open membership to all interested and/or eligible students. Fraternities, sororities and/or secret societies shall not receive recognition in any manner under this policy. Attendance at all meetings must be voluntary.

The administration shall develop general guidelines and rules so that students will be informed about the procedure for scheduling meetings and activities, the hours available for meetings and the facilities available for meeting space. Students must request permission for a meeting of a non-curriculum-related group from the principal and submit all scheduling requests to the principal for approval.

A member of the professional staff must attend every meeting or activity scheduled on school premises as a monitor for purposes of general supervision.

Students shall be responsible for ensuring the presence of a faculty monitor prior to every meeting.

Under no circumstances shall the school compel a faculty member or school employee to monitor or attend a meeting of a noncurricular student group if the content of the speech at the meeting is contrary to the beliefs of the school employee.

School employees may be present at religious meetings of a noncurricular group only in a non-participatory capacity.

All forms of hazing in initiations shall be prohibited in any group meeting on school premises. No initiation shall be held for any noncurricular student group which will bring criticism to the school system or be degrading to the student.

The school district, through the building principal, retains the authority to prohibit meetings which otherwise would be unlawful. Further, nothing in this policy shall be construed to limit the authority of the school to maintain discipline on school premises, to protect the well-

being of students and faculty and to insure that attendance at meetings is voluntary. Neither shall anything in this policy be used to imply that the school is sponsoring a noncurricular student group. No public funding or support shall be extended to noncurricular student groups other than an opportunity to meet on school premises.

In providing equal access to school facilities for all noncurricular groups, the district is not expressing any opinion or approval of the subject matter discussed at any meeting nor is it advocating or supporting in any manner the point of view expressed by any student or group meeting as allowed by this policy.

Noncurricular student groups shall not be denied equal access to school facilities solely on the basis of the religious, political, philosophical or other content of any speech at such meetings.

Notice to Students and Parents Regarding the Use of Video Recorders on School Buses

The district has installed video recording equipment on all school buses to monitor school transportation and will be videotaping on bus routes at random during the school year. Each bus has been equipped with a video monitor box in which a video recording device may be installed. Students will not be notified when a recording device has been installed on their bus.

Tapes will be reviewed on a routine basis by the principal, and evidence of student misconduct will be documented. Students found to be in violation of the district's bus conduct rules will be notified and disciplinary action will be initiated under the Board-adopted Code of Conduct and Discipline.

Videotapes will be treated as protected student records under the Family Educational Rights and Privacy Act. The following guidelines will apply:

1. Tapes will remain in the custody of the transportation supervisor.
2. Parents or students who wish to view a videotape in response to disciplinary action taken against a student may request such access under the procedures set forth in policy JRA/JRC-Student Records/Release of Information on Students.
3. Person unrelated to a disciplinary incident will not be permitted to view bus videotapes.

Student Discipline

The Board believes that effective student discipline is a prerequisite for sound educational practice and productive learning. The objectives of disciplining any student must be to help the student develop a positive attitude toward self-discipline and socially acceptable behavior.

All policies and procedures for handling general and major student discipline problems shall be designed to achieve these broad objectives. Disorderly students shall be dealt with in a manner which allows other students to learn in an atmosphere which is safe, conducive to the learning process and free from unnecessary disruptions.

The Board, in accordance with applicable law, has adopted a written student conduct and discipline code based upon the principle that every student is expected to follow accepted rules of conduct and to show respect for and to obey persons in authority. The code also emphasizes that certain behavior, especially behavior that disrupts the classroom, is unacceptable and may result in disciplinary action. The code shall be enforced uniformly, fairly and consistently for all students.

All Board-adopted policies and Board-approved regulations containing the letters "JK" in the file name constitute the discipline section of the legally required code.

The Board shall consult with administrators, teachers, parents, students and other members of the community in the development and review of the conduct and discipline code.

Immunity for enforcement of discipline code

An act of a teacher or other employee shall not be considered child abuse if the act was performed in good faith and in compliance with Board policy and procedures.

A teacher or any other person acting in good faith and in compliance with the discipline code adopted by the Board shall be immune from criminal prosecution or civil liability unless the person is acting willfully or wantonly.

Remedial discipline plans

The principal may develop a remedial discipline plan for any student who causes a material and substantial disruption in the classroom, on school grounds, in school vehicles or at school activities or events. The goal of the remedial discipline plan shall be to address the student's disruptive behavior and educational needs while keeping the child in school.

Discipline of habitually disruptive students

Students who have a material and substantial disruption on school grounds, in a school vehicle or at a school activity or sanctioned event three or more times during the course of a school year may be declared habitually disruptive students. Any student enrolled in the district's schools may be subject to being declared a habitually disruptive student. Declaration as a habitually disruptive student shall result in the student's suspension and/or expulsion in accordance with Board policy concerning student suspensions, expulsions and other disciplinary interventions.

Distribution of conduct and discipline code

The conduct and discipline code shall be provided to each student upon enrollment in elementary, middle and high school. The district shall take reasonable measures to ensure each student is familiar with the code. Copies shall be posted in each school of the district. In

addition, any significant change in the code shall be provided to students and posted in each school.

Student Discipline

Remedial discipline plans

1. The principal may develop a plan for any student who causes a material and substantial disruption in the classroom, on school grounds, in school vehicles or at school activities or events. The goal of the remedial discipline plan shall be to address the student's disruptive behavior and educational needs while keeping the child in school.
2. To develop the plan, the principal will arrange for a meeting with the student, the student's parent/guardian and any members of the staff whom the principal believes should attend.
3. The purpose of the meeting will be to address the reasons for the student's disruptive behavior and to establish goals, objectives and timelines to modify such behavior. A written plan will be prepared which addresses the student's disruptive behavior, educational needs and what steps are necessary to keep the child in school. The plan will include incentives for good behavior and consequences if the student violates the plan.
4. The plan may be written in the form of a contract which the student and the parent/guardian will sign and date.
5. The parent/guardian will be provided a copy of the remedial discipline plan and it will be placed in the student's cumulative file.

Habitually disruptive students

A student may be declared "habitually disruptive" if three or more times during the course of the school year the student causes a material and substantial disruption on school grounds, in a school vehicle or at a school activity or sanctioned event.

1. The principal will inform the superintendent when a student causes a second material and substantial disruption.
2. The student and the parent/guardian will be notified in writing of each disruption which counts toward declaring the student habitually disruptive. The student and parent/guardian will also be notified in writing and by telephone or other oral communication of the definition of "habitually disruptive student."
3. A student who has been declared habitually disruptive shall be suspended and/or expelled in accordance with Board policy concerning student suspensions, expulsions and other disciplinary interventions.

Discipline of Students with Disabilities

Students with disabilities are neither immune from a school district's disciplinary process nor entitled to participate in programs when their behavior impairs the education of other students. Students with disabilities who engage in disruptive activities and/or actions dangerous to themselves or others will be disciplined in accordance with their Individualized Education Programs (IEPs), any behavioral intervention plan and this policy.

Nothing in this policy shall prohibit an IEP team from establishing consequences for disruptive or unacceptable behavior as a part of the student's IEP and/or behavioral intervention plan.

Suspensions, expulsions and provision of services

Students with disabilities may be suspended for up to 10 school days in any given school year for violations of the student code of conduct. These 10 days need not be consecutive. During any such suspension, the student shall not receive educational services.

A disciplinary change of placement occurs when a student is removed for more than 10 consecutive school days or subjected to a series of removals that constitute a pattern of removal under governing law.

Upon the eleventh school day of suspension or removal when such suspension or removal does not result in a disciplinary change of placement, educational services shall be provided to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. School personnel, in consultation with at least one of the student's teachers, shall determine the educational services to be provided to the student during this period of suspension or removal.

When a student is expelled or subject to a removal that results in a disciplinary change of placement, educational services shall be provided as determined by the student's IEP team to enable the student to participate in the general education curriculum, although in another setting, and to progress toward meeting his or her IEP goals.

Prior to expulsion or other disciplinary change in placement, the student's parents shall be notified of the decision to take such disciplinary action and of their procedural safeguards. This notification shall occur not later than the date on which such decision is made.

Manifestation determination

Within 10 school days from the date of the decision to take disciplinary action that will result in a disciplinary change of placement, relevant members of the student's IEP team, including the student's parents, shall review all relevant information in the student's file, including the student's IEP, any teacher observations, and any relevant information provided by the parents, to determine whether the student's behavior was a manifestation of the student's disability.

The team shall determine: (1) whether the student's conduct in question was caused by, or had a direct and substantial relationship to, the student's disability; and (2) whether the student's conduct in question was the direct result of the school's failure to implement the

student's IEP. If the answer to either of these two questions is "yes," the student's behavior shall be deemed to be a manifestation of the student's disability.

Disciplinary action for behavior that is not a manifestation

If the team determines that the student's behavior was not a manifestation of the student's disability, disciplinary procedures shall be applied to the student in the same manner as applied to nondisabled students. As stated above, the student shall receive educational services during the period of expulsion or other disciplinary change of placement.

Within a reasonable amount of time after determining that the student's behavior is not a manifestation of the student's disability, the student may receive, as appropriate, a functional behavioral assessment ("FBA"). In addition, a behavioral intervention plan ("BIP") may be developed for the student, as appropriate. If a BIP has already been developed, the BIP may be reviewed and modified, as appropriate.

Disciplinary action and/or alternative placement for behavior that is a manifestation

If the team determines that the student's behavior is a manifestation of the student's disability, expulsion proceedings or other disciplinary change of placement will be discontinued. However, the student may be placed in an alternative setting for up to 45 school days as discussed below or the student's placement may be changed for educational reasons as determined by the IEP team or as otherwise permitted by law.

Within a reasonable amount of time after determining that the student's behavior is a manifestation of the student's disability, the student's IEP team shall: (1) conduct an FBA of the student, unless an FBA has already been conducted; and (2) implement a BIP for the student. If a BIP has already been developed, the IEP team shall review it and modify it as necessary to address the student's behavior.

Placement in an alternative setting for 45 school days

School personnel may remove a student with disabilities to an interim alternative setting for not more than 45 school days without regard to the manifestation determination if:

1. the student carried a weapon to school or a school function;
2. the student possessed a weapon at school or a school function;
3. the student possessed or used illegal drugs at school or a school function;
4. the student sold or solicited the sale of a controlled substance at school or a school function;
5. the student inflicted serious bodily injury on another person while at school or a school function; or
6. a hearing officer or court of appropriate jurisdiction so orders.

Such removal to an alternative setting is permissible even if the student's behavior is determined to be a manifestation of the student's disability. The student's IEP team shall determine the educational services to be provided to the student in the alternative setting.

Students not identified as disabled

Students who have not been identified as disabled shall be subjected to the same disciplinary measures applied to students with disabilities if the district had "knowledge" of the student's disability before the behavior that precipitated the disciplinary action occurred.

The district is deemed to have knowledge of the student's disability if:

1. the student's parent has expressed concern in writing to district supervisory or administrative personnel, or the student's teacher, that the student is in need of special education and related services;
2. the student's parent has requested an evaluation; or
3. the student's teacher or other district personnel have expressed specific concerns about the student's pattern of behavior directly to the director of special education or other district supervisory personnel.

If a request for evaluation is made during the period the student is subject to disciplinary measures, the evaluation will be expedited. Until the evaluation is completed, the student shall remain in the district's determined educational placement, which can include suspension or expulsion.

The district shall not be deemed to have knowledge that the student is a child with a disability if the parent has not allowed an evaluation of the student, or the student has been evaluated and it was determined that he or she is not a child with a disability, or the student was determined eligible for special education and related services, but the parent refused services.

Use of Physical Intervention and Restraint

To maintain a safe learning environment, district employees may, within the scope of their employment and consistent with state law, use physical intervention and restraint with students in accordance with this policy and accompanying regulation. Such actions shall not be considered child abuse or corporal punishment if performed in good faith and in compliance with this policy and accompanying regulation.

Physical intervention

Corporal punishment shall not be administered to any student by any district employee.

Within the scope of their employment, district employees may use reasonable and appropriate physical intervention with a student that does not constitute restraint as defined by this policy, to accomplish the following:

1. To quell a disturbance threatening physical injury to the student or others.
2. To obtain possession of weapons or other dangerous objects upon or within the control of the student.
3. For the purpose of self-defense.
4. For the protection of persons against physical injury or to prevent the destruction of property which could lead to physical injury to the student or others.

Under no circumstances shall a student be physically held for more than five minutes unless the provisions regarding restraint contained in this policy and accompanying regulation are followed.

Restraint

Restraint is defined by state law and this policy as any method or device used to involuntarily limit a student's freedom of movement, including but not limited to bodily physical force, mechanical devices, chemicals and seclusion. Restraint shall not include the holding of a student for less than five minutes by a district employee for the protection of the student or others and other actions excluded from the definition of restraint in state law.

District employees shall not use restraint as a punitive form of discipline or as a threat to control or gain compliance of a student's behavior. District employees are also prohibited from restraining a student by use of a mechanical restraint or chemical restraint, as those terms are defined by applicable State Board of Education rules and this policy's accompanying regulation.

Restraint shall only be administered by district employees trained in accordance with applicable State Board of Education rules.

Exceptions

The restraint provisions in this policy and accompanying regulation shall not apply to:

1. Peace officers as defined by C.R.S. 16-2.5-101 *et seq.* who are acting within the scope of their employment or in accordance with C.R.S. 16-3-109; and
2. When the district is engaged in transporting a student from one facility or location to another facility or location when it is within the scope of the district's powers and authority to effect such transportation.

Disciplinary Removal from Classroom

It is the policy of the Board to maintain classrooms in which student behavior does not interfere with the ability of the teacher to teach effectively or the ability of other students to participate in classroom learning activities.

Students shall be expected to abide by the code of conduct adopted by the Board and any other appropriate classroom rules of behavior established by the building principal and/or classroom teacher for the purpose of maintaining order and a favorable academic atmosphere. Any student who violates the code of conduct or other classroom rules may be subject to removal from class and/or disciplinary action. Upon the third formal removal from class, a teacher may remove the student from the teacher's class in accordance with this policy, its accompanying regulation and applicable law.

Student removal from class is a serious measure and should not be imposed in an arbitrary, casual or inconsistent manner. Behavioral expectations are always more constructive and more likely to be followed when they are communicated as clearly as possible to students. However, it is neither possible nor necessary to specify every type of improper or inappropriate behavior, or every circumstance that would justify removal from class under this policy. Teachers are expected to exercise their best professional judgment in deciding whether it is appropriate to remove a student from class in any particular circumstance. All instances of formal removal from class shall be documented.

A teacher is authorized to immediately remove a student from the teacher's classroom if the student's behavior:

1. violates the code of conduct adopted by the Board;
2. is dangerous, unruly, or disruptive; or
3. seriously interferes with the ability of the teacher to teach the class or other students to learn.

A student with a disability may be removed from class and placed in an alternative educational setting only to the extent authorized by state and federal laws and regulations.

Removal from class under this policy does not prohibit the district from pursuing or implementing additional disciplinary measures, including but not limited to detentions, suspensions, or expulsions for the conduct or behavior for which the student was removed, in accordance with Board policy concerning student suspensions, expulsions and other disciplinary interventions.

The superintendent is directed to establish procedures to implement this policy so that removals from a classroom occur in a consistent manner throughout the district. Parents/guardians shall be notified of the student's removal from class in accordance with established procedures.

Disciplinary Removal from Classroom

Staff, including administrators and teachers, must use their training, experience and authority to create schools and classes where effective learning is possible. Students should be able to attend school and classes as free as reasonably possible from unnecessary and unwarranted distraction and disruption. Such behavior interferes with the classroom environment and will not be tolerated.

A student who engages in classroom conduct or behavior prohibited by the code of conduct may be removed from class by a teacher and placed temporarily in an alternative setting in accordance with these procedures and consistent with state and federal law.

For purposes of this policy and procedure, a "class" includes regular classes, special classes, resource room sessions, labs, study halls, library time, school assemblies and other such learning opportunities taught or supervised by a teacher. "Teacher" means a person holding a teaching license or authorization issued by the state who is employed to instruct, direct or supervise the instructional program. It does not include substitute teachers as defined in state law.

Informal removal to the principal's office

An informal removal from class occurs when a student breaks one or several classroom rules in a class period or during the school day. The teacher may remove a student by using approved discipline management techniques such as having the student stand in the hall outside the door or some other safe "time out" environment either in or out of the classroom, or sending the student to the principal's office for a short period of time. Generally, the student will be allowed to return to his or her classroom later the same day. The procedures set forth below do not apply to an informal removal from class.

Formal removal from class

A teacher may formally remove a student from class for the following conduct or behavior:

1. Conduct that is prohibited in the student code of conduct. A teacher's decision to remove a student from class for behavior covered by **board** policies regarding suspension and expulsion may, but does not necessarily, mean that the student will also be suspended **and/or** expelled.
2. Disruptive, dangerous, or unruly behavior. The following behavior, by way of example and without limitation, may be determined to be disruptive, dangerous, or unruly:
 - a. Inappropriate physical contact intended or likely to hurt, distract, or annoy others such as hitting, biting, pushing, shoving, poking, pinching, or grabbing;
 - b. Inappropriate verbal conduct intended or likely to upset, distract, or annoy others such as name calling, teasing, or baiting;
 - c. Behavior that may constitute sexual or other harassment;
 - d. Repeated or extreme inappropriate verbal conduct likely to disrupt the educational environment, particularly when others are talking (e.g., lecture by teacher, response by other student, presentation by visitor) or during quiet study time;
 - e. Throwing any object, particularly one likely to cause harm or damage such as books, pencils, scissors, etc.;
 - f. Inciting other students to act inappropriately or to disobey the teacher or school or class rules, including without limitation, inciting others to walk out;
 - g. Destroying or damaging the property of the school, the teacher or another student; or
 - h. Loud, obnoxious, or outrageous behavior.
3. Conduct that otherwise interferes with the ability of the teacher to teach effectively. Students are required to cooperate with the teacher by listening attentively, obeying all instructions promptly, and responding appropriately when called upon. A student's noncompliance may, in turn, distract others either by setting a bad example or by diverting the class from the lesson to the student's inappropriate behavior. By way of example and without limitation, this behavior includes:
 - Open defiance of the teacher, manifest in words, gestures, or other overt behavior;
 - Open disrespect of the teacher, manifest in words, gestures, or other overt behavior; or
 - Other behavior likely or intended to sabotage or undermine classroom instruction.

Procedures to be followed for formally removing a student from class

Unless the behavior is extreme as determined by the teacher, a teacher shall warn a student that continued misbehavior may lead to removal from class. When the teacher determines that removal is appropriate, the teacher **shall** take one of the following courses of action:

1. Instruct the student to go to the main office. Unless prevented by the immediate circumstances, the teacher shall send a note with the student stating the reason for the student's removal and call the building principal's office.
2. Obtain coverage for the class and escort the student to the main school office. The teacher shall inform the building principal or designee of the reason for the student's removal from class.
3. Seek assistance from the main school office or other available staff. When assistance arrives, the teacher or the other staff member should accompany the student to the main office. The principal or designee shall be informed of the reason for the student's removal.

Within 24 hours of the student's removal from class, the teacher shall submit to the building principal or designee a short and concise written explanation of the basis for the student's removal from class.

Notice to parent/guardian

As soon as practicable, the building principal or designee shall notify the student's parent/guardian, in writing, that the student was removed from class. The written notice shall specify the class from which the student was removed, the duration of the removal, and the basis for the removal as stated by the teacher. The notice shall provide an opportunity for the parent/guardian to attend a student-teacher conference regarding the removal. If the student's removal from class is also subject to disciplinary action (i.e., suspension or expulsion) for the particular classroom misconduct, the student's parent/guardian shall also be notified of the disciplinary action in accordance with legal and policy requirements.

Placement procedures

Each building principal shall designate a room or other suitable place in the school to serve as the short-term removal area.

When the student arrives at the main office, the building principal or designee shall give the student an opportunity to briefly explain the situation. If the building principal or designee is not available immediately upon the student's arrival, the student will be taken to the designated short-term removal area and the principal or designee will speak to the student as soon as practicable.

At the discretion of the building principal or designee, the student may be placed in another appropriate class, program or educational setting, provided students are supervised in such alternative setting.

Students placed in the short-term removal area shall be supervised. During their time of placement, students are expected to do work of an academic nature. If possible, such work shall be related to the work in the class from which the student was removed or may be related to the student's misconduct. In no event shall a student's time in the short-term removal area be recreation or other free time.

In most cases, a student shall remain in the short-term removal area for the duration of the class from which he or she was removed. Prior to allowing the student to resume his or her normal schedule, the building principal or designee shall speak to the student to determine whether the student is, or appears to be, ready and able to return to class without recurrence of the behavior for which the student was removed. In the event it is not deemed appropriate to return the student to regular classes, the building principal or designee may consider a different placement option.

Behavior plan

The principal or designee and teacher shall consider whether a behavior plan should be developed for the student upon the student's first removal from class. The behavior plan will be similar, if not the same, as a remedial discipline plan developed for disruptive students in accordance with Policy JK. A behavior plan shall be developed and implemented after the teacher formally removes a student from class for the second time and must be developed and implemented before a student may be removed from class for the remainder of the term of the class.

Removal for remainder of term

Upon the third formal removal from class, a student may be officially removed from the teacher's class for the remainder of the term. The principal shall be responsible for determining the appropriate educational placement of the student, which may or may not be another section of the same class, depending on a variety of circumstances. The principal's decision regarding placement is final.

Once a student is officially removed from class, a loss of credit may occur if the principal determines that it would be too disruptive to enroll the student in another class after the start of the term.

Review by principal

The principal is required to collect data pertaining to the number of students who are removed from class during the year. This information will be reported to the public on the safety section of the school report card. While there are a variety of factors to consider when analyzing this data, an unusually high number of formal documented student removals from any one teacher may be cause for concern. The principal shall review this data with teachers at least annually.

A student may be removed from a classroom by a teacher only in accordance with the requirements of this regulation and accompanying policy and the applicable provisions of state and federal law. All teacher actions under this regulation shall be subject to evaluation and supervision by the teacher's supervisor as provided in Board policies and procedures.

**Suspension/Expulsion of Students
(and Other Disciplinary Interventions)**

The Board of Education shall provide due process of law to students through written procedures consistent with law for the suspension or expulsion of students and the denial of admission. (See JKD/JKE-R.) In matters involving student misconduct that may or will result in the student's suspension and/or expulsion, the student's parent/guardian shall be notified and involved to the greatest possible extent in the disciplinary procedures.

Proportionate disciplinary interventions and consequences shall be imposed to address the student's misconduct and maintain a safe and supportive learning environment for students and staff.

The Board and its designee(s) shall consider the following factors in determining whether to suspend or expel a student:

1. the student's age;
2. the student's disciplinary history;
3. the student's eligibility as a student with a disability;
4. the seriousness of the violation committed by the student;
5. the threat posed to any student or staff; and
6. the likelihood that a lesser intervention would properly address the violation.

Other disciplinary interventions

In lieu of an out-of-school suspension or expulsion and in accordance with applicable law, the principal or designee may consider the use of available interventions to address the student's misconduct. The use of such interventions will vary, depending upon the facts and circumstances of an individual case. Such interventions shall be at the principal's or designee's sole discretion and include but are not limited to: detention, in-school suspension, counseling, participation in the district's positive behavioral intervention support (PBIS) program, peer mediation, or other approaches to address the student's misconduct that do not involve an out-of-school suspension or expulsion and minimize the student's exposure to the criminal and juvenile justice system. [SusSC.R.S. 22-32-109.1 (2)(a)(II).]

As another intervention and alternative to suspension, the principal or designee may permit the student to remain in school with the consent of the student's teachers if the parent/guardian attends class with the student for a period of time specified by the principal or designee. If the parent/guardian does not agree or fails to attend class with the student, the student shall be suspended in accordance with the accompanying regulations.

This alternative to suspension shall not be used if expulsion proceedings have been or are about to be initiated or if the principal or designee determines that the student's presence in school, even if accompanied by a parent/guardian, would be disruptive to the operations of the school or be detrimental to the learning environment.

Nothing in this policy shall limit the Board's and its designees' authority to suspend and/or expel a student as deemed appropriate by the Board and its designees. The decision to suspend and/or expel a student instead of providing an alternative to suspension or

expulsion or the failure of an intervention to remediate the student's behavior shall not be grounds to prevent the Board and its designees from proceeding with appropriate disciplinary measures, including but not limited to suspension and/or expulsion.

Delegation of authority

1. The Board of Education delegates to the principals of the school district or to a person designated in writing by the principal the power to suspend a student in that school for not more than five school days on the grounds stated in C.R.S. 22-33-106 (1) (a), (1) (b), (1) (c) or (1) (e) or not more than 10 school days on the grounds stated in C.R.S. 22-33-106 (1) (d) unless expulsion is mandatory under law (see exhibit coded JKD/JKE-E), but the total period of suspension shall not exceed 25 school days.
2. The Board of Education delegates to the superintendent of schools the authority to suspend a student, in accordance with C.R.S. 22-33-105, for an additional 10 school days plus up to and including an additional 10 days necessary in order to present the matter to the Board.
3. The Board of Education delegates to the superintendent of schools the authority to deny admission to or expel for any period not extending beyond one year any student whom the superintendent, in accordance with the limitations imposed by Title 22, Article 33, of the Colorado Revised Statutes, shall determine does not qualify for admission to or continued attendance at the public schools of the district.

The superintendent shall report on each case acted upon at the next meeting of the Board, briefly describing the circumstances and the reasons for action taken. Such denial of admission or expulsion by the superintendent shall be subject to appeal to the Board. The appeal shall consist of a review of the facts that were presented, arguments relating to the decision and questions of clarification from the Board.

Expulsion for unlawful sexual behavior or crime of violence

When a petition is filed in juvenile court or district court that alleges a student between the ages of 12 to 18 years has committed an offense that would constitute unlawful sexual behavior or a crime of violence if committed by an adult, basic identification information, as defined in state law, along with the details of the alleged delinquent act or offense, is required by law to be provided immediately to the school district in which the juvenile is enrolled.

The information shall be used by the Board of Education to determine whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or school personnel and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel. The Board shall take appropriate disciplinary action, which may include suspension or expulsion, in accordance with this policy.

The Board may determine to wait until the conclusion of court proceedings to consider expulsion, in which case it shall be the responsibility of the district to provide an alternative educational program for the student as specified in state law.

Suspension/Expulsion of Students (Hearing Procedures)

A. Procedure for suspension of 10 days or less

Through written policy the Board of Education has delegated to any school principal the power to suspend a student for not more than five or 10 days, depending upon the type of infraction. Pursuant to policy JKD/JKE, the superintendent has been delegated the power to suspend a student for additional periods of time. However, the total period of suspension will not exceed 25 school days. As a general rule, a suspension will be 10 days or less.

The following procedures shall be followed in any suspension, unless the student is suspended pending an expulsion proceeding, in which case the expulsion procedures shall apply.

When the term "parent/guardian" is used, it refers to the parent/guardian of students under 18 years of age; if the student is 18 years or older, it refers to the student. All references to parent/guardian are intended to also include legal custodian.

1. **Notice.** The principal, designee or the superintendent at the time of contemplated action will give the student and the parent/guardian notice of the contemplated action. Such notice may be oral or in writing. If oral, such notice will be given in person. If written, delivery may be by United States mail addressed to the last known address of the student or student's parent/guardian.
2. **Contents of notice.** The notice will contain the following basic information:
 - a. A statement of the charges against the student.
 - b. A statement of what the student is accused of doing.
 - c. A statement of the basis of the allegation. Specific names may be with-held if necessary.

This information need not be set out formally but should sufficiently inform the student and parent/guardian of the basis for the contemplated action.

3. **Informal hearing.** In an informal setting, the student will be given an opportunity to admit or deny the accusation and to give his or her version of the events. The administrator may allow the student to call witnesses or may personally call the accuser or other witnesses. The administrator may hold a more extensive hearing in order to gather relevant information prior to making a decision on the contemplated action.
4. **Timing.** The notice and informal hearing should precede removal of the student from school. There need be no delay between the time notice is given and the time of the informal hearing.
5. **If the student's presence in school presents a danger.** Notice and an informal hearing need not be given prior to removal from school where a student's presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process. In this case, an informal hearing will follow as soon after the student's removal as practicable.
6. **Notification following suspension.** If a student is suspended the administrator delegated the authority to suspend will immediately notify the parent/guardian that the student has been suspended, the grounds for such suspension and the period of such suspension. The notification will include the time and place for the parent/guardian to meet with the administrator to review the suspension.
7. **Removal from school grounds.** A suspended student must leave the school building and the school grounds immediately after the parent/guardian and administrator have determined the best way to transfer custody of the student to the parent/guardian.
8. **Readmittance.** No student will be readmitted to school until the meeting with the parent/guardian has taken place or until, in the opinion of the administrator, the parent/guardian has substantially agreed to review the suspension with the administrator. However, if the administrator cannot contact the parent/guardian or if the parent/guardian repeatedly fails to appear for scheduled meetings, the administrator may readmit the student. The meeting will address whether there is a need to develop a remedial discipline plan for the student in an effort to prevent further disciplinary action.
9. **Make-up work.** Suspended students will be provided an opportunity to make up school work up to a grade of "C" during the period of suspension, so the student is able to reintegrate into the educational program of the district following the period of suspension.

B. Procedure for expulsion or denial of admission

In the event the Board of Education contemplates action denying admission to any student or prospective student or expelling any student, the following procedures shall be followed:

1. **Notice.** Not less than 10 days prior to the date of the contemplated action, the Board of Education or an appropriate administrative officer of the district will cause written notice of such proposed action to be delivered to the student and the student's parent/guardian. Such delivery may be by United States mail addressed to the last known address of the student or the student's parent/guardian.
2. **Emergency Notice.** In the event it is determined that an emergency exists necessitating a shorter period of notice, the period of notice may be shortened provided that the student or the student's parent/guardian have actual notice of the hearing prior to the time it is held.
3. **Contents of Notice.** The notice will contain the following basic information:
 - a. A statement of the basic reasons alleged for the contemplated denial of admission or expulsion.
 - b. A statement that a hearing on the question of expulsion or denial of admission will be held if requested by the student or parent/guardian within 10 days after the date of the notice.
 - c. A statement of the date, time and place of the hearing in the event one is requested.
 - d. A statement that the student may be present at the hearing and hear all information against him or her, that the student will have an opportunity to present such information as is relevant and that the student may be accompanied and represented by a parent/guardian and an attorney.
 - e. A statement that failure to participate in such hearing constitutes a waiver of further rights in the matter.
4. **Conduct of hearing.** A hearing may be requested by the parent/guardian. Such hearing will be conducted by the superintendent. The hearing may be conducted in open session or may be closed except to those individuals deemed advisable by the superintendent but including in all events the student, the parent/guardian and, if requested, the student's attorney. Such individuals as may have pertinent information will be admitted to a closed hearing to the extent necessary to provide such information.

Testimony and information may be presented under oath. However, technical rules of evidence will not be applicable, and the superintendent may consider and give appropriate weight to such information or evidence he or she deems appropriate. The student's written statement, if any, may be presented as evidence in accordance with applicable law. The student or representative may question individuals presenting information.

A sufficient record of the proceedings shall be kept so as to enable a transcript to be prepared in the event either party so requests. Preparation of the transcript will be at the expense of the party requesting the same.

The superintendent will prepare specific factual findings and issue a written decision within five days after the hearing.

5. **Appeal.** Within 10 days after the decision of the superintendent, the student may appeal the decision to the Board. Failure to request an appeal within 10 days will result in a waiver of the right to appeal and the superintendent's decision will become final.

If an appeal is properly requested, the Board will review the record concerning the expulsion or denial of admission. The record includes notices and other documents concerning the challenged action, the transcript of the testimony, if any, the hearing exhibits, the findings and recommendation of the superintendent, the superintendent's written decision, and other documents concerning the challenged action. The student may be represented by counsel at the appeal. Representatives of the district and the parents may make brief statements to the Board, but no new evidence may be presented unless such evidence was not reasonably discoverable at the time of the hearing. Members of the Board may ask questions for

purposes of clarification of the record.

The Board will make final determination regarding the expulsion of the student and will inform the student and his parent/guardian of the right to judicial review.

6. **Information to parents.** Upon expelling a student, district personnel shall provide information to the student's parent/guardian concerning the educational alternatives available to the student during the period of expulsion, including the right to request that the district provide services during the expulsion. If the parent/guardian chooses to provide a home-based education program for the student, district personnel will assist the parent/guardian in obtaining appropriate curricula for the student if requested by the parent/guardian.

If a student is expelled and is not receiving educational services through the district, the school district shall contact the expelled student's parent/guardian at least once every 60 days until the student is eligible to re-enroll to determine whether the child is receiving educational services. District personnel need not contact the parent/guardian after the student is enrolled in another school district or in an independent or parochial school, or if the student is committed to the department of human services or sentenced through the juvenile justice system.

7. **Readmittance.** A student who has been expelled shall be prohibited from enrolling or re-enrolling in the same school in which the victim of the offense or member of the victim's immediate family is enrolled or employed when:
 - a. the expelled student was convicted of a crime, adjudicated a juvenile delinquent, received a deferred judgment or was placed in a diversion program as a result of committing the offense for which the student was expelled;
 - b. there is an identifiable victim of the expelled student's offense; and
 - c. the offense for which the student was expelled does not constitute a crime against property.

If the district has no actual knowledge of the name of the victim, the expelled student shall be prohibited from enrolling or re-enrolling only upon request of the victim or a member of the victim's immediate family.

No student will be readmitted to school until after a meeting between the principal or designee and the parent/guardian has taken place except that if the administrator cannot contact the parent/guardian or if the parent/guardian repeatedly fails to appear for scheduled meetings, the administrator may readmit the student.

C. Procedure for crimes of violence or unlawful sexual behavior

The following procedures will apply when the district receives notification that a student has been charged in juvenile or district court with a crime of violence or unlawful sexual behavior, as those terms are defined by state law.

1. The Board or its designee will make a preliminary determination whether it will proceed with an expulsion hearing, based on the following factors:
 - a. Whether the student has exhibited behavior that is detrimental to the safety, welfare and morals of other students or school personnel.
 - b. Whether educating the student in school may disrupt the learning environment, provide a negative example for other students or create a dangerous and unsafe environment for students, teachers and other school personnel.
2. If it is determined that the student should not be educated in the schools of the district, the district may suspend or expel the student, in accordance with the procedures set forth above.
3. Alternatively, suspension or expulsion proceedings may be postponed, pending the outcome of the court proceedings. If the suspension or expulsion proceedings are postponed, the student will not be permitted to return to school during that period. An appropriate alternative education program, including but not limited to, an on-line program authorized by state law or a home-based education program will be established for the student during the period pending the resolution of the juvenile proceedings. The time that a student spends in an alternative education program will not be considered a period of suspension or expulsion.
4. If the student pleads guilty to the charge, is found guilty or is adjudicated a delinquent juvenile, the Board or designee may proceed to suspend or expel the student following the procedures set forth in these regulations.
5. Information regarding the details of the alleged crime of violence or unlawful sexual behavior will be used by the Board or its designee for the purposes set forth in this policy, but shall remain confidential unless the information is otherwise available to the public by law.

Grounds for Suspension/Expulsion

According to Colorado Revised Statutes 22-33-106 (1) (a-g) and 3 (e) and 22-12-105 (3), the following may be grounds for suspension or expulsion from a public school:

1. Continued willful disobedience or open and persistent defiance of proper authority.
2. Willful destruction or defacing of school property.
3. Behavior on or off school property which is detrimental to the welfare or safety of other pupils or of school personnel including behavior which creates a threat of physical harm to the child or other children.
4. Declaration as a habitually disruptive student.
 - a. For purposes of this paragraph, "habitually disruptive student" means a child who has caused a material and substantial disruption three times during the course of the school year on school grounds, in a school vehicle or at school activities or events. Any student who is enrolled in a public school may be subject to being declared a habitually disruptive student.
 - b. The student and the parent, legal guardian, or legal custodian shall have been notified in writing of each disruption counted toward declaring the student as habitually disruptive and the student and parent, legal guardian, or legal custodian shall have

been notified in writing and by telephone or other means at the home or the place of employment of the parent or legal guardian of the definition of "habitually disruptive student."

5. The use, possession or sale of a drug or controlled substance as defined in C.R.S. 12-22-303.
6. The commission of an act which if committed by an adult would be robbery pursuant to Part 3, Article 4, Title 18, C.R.S. or assault pursuant to Part 2, Article 3, Title 18, C.R.S. other than the commission of an act that would be third degree assault under C.R.S. 18-3-204 if committed by an adult.
7. The carrying, bringing, using or possessing a dangerous weapon without the authorization of the school or school district.

NOTE: In accordance with federal law, expulsion shall be mandatory and for no less than one full calendar year for a student who is determined to have brought to or possessed a firearm at school. The superintendent may modify the length of this federal requirement for expulsion on a case-by-case basis. Such modification shall be in writing.

For purposes of this paragraph, "dangerous weapon" means:

- a. A firearm, whether loaded or unloaded.
 - b. Any pellet or BB gun or other device, whether operational or not, designed to propel projectiles by spring action or compressed air.
 - c. A fixed blade knife with a blade that measures longer than three inches in length or a spring loaded knife or a pocket knife with a blade longer than three and one-half inches.
 - d. Any object, device, instrument, material, or substance, whether animate or inanimate, used or intended to be used to inflict death or serious bodily injury.
8. Repeated interference with a school's ability to provide educational opportunities to other students.
 9. Carrying, using, actively displaying, or threatening with the use of a firearm facsimile that could reasonably be mistaken for an actual firearm in a school building or in or on school property.
 10. Failure to comply with the provisions of Part 9, Article 4, Title 25, C.R.S. (immunization requirements). Any suspension, expulsion or denial of admission for such failure to comply shall not be recorded as a disciplinary action but may be recorded with the student's immunization record with an appropriate explanation.
 11. Making a false accusation of criminal activity against a district employee to law enforcement or to the district.

According to C.R.S. 22-33-106 (2), subject to the district's responsibilities under the Exceptional Children's Education Act and applicable federal law (see policy JK*-2, *Discipline of Students with Disabilities*), the following shall be grounds for expulsion from or denial of admission to a public school or diversion to an appropriate alternate program:

1. Physical or mental disability such that the child cannot reasonably benefit from the programs available.
2. Physical or mental disability or disease causing the attendance of the child suffering therefrom to be inimical to the welfare of other students.

Suspension/Expulsion of Handicapped Students

Special education students are neither immune from a school district's disciplinary process nor entitled to participate in programs when their behavior impairs the education of other students.

A special education student may be temporarily suspended from school if exclusion is warranted because of the student's disruptive activities and/or actions which present a physical danger to himself, other students, school personnel or school property.

A special education student whose behavior is determined to be a manifestation of his handicap may not be expelled but shall have his individual education plan (IEP) reviewed by the appropriate IEP team. The team shall review the IEP for appropriateness of services and the need for a more restrictive or alternate placement.

A special education student whose behavior creates a threat of physical harm to himself or other students may not be expelled if the actions creating the threat are a manifestation of his handicap. However, the student shall be removed from the classroom to an appropriate alternative setting within the district for a length of time which is consistent with federal law. Within 10 days, the school in which the student is enrolled shall arrange for a re-examination of his IEP to amend the plan as necessary to insure that the needs of the student are addressed in a more appropriate manner or setting which is less disruptive to other students.

Legal counsel and the special education director shall be consulted prior to consideration of expulsion of a special education student for misbehavior that is not related to his handicapping condition.

Student Suspension/Expulsion (Handicapped Students)

Special education students who engage in disruptive activities and/or actions dangerous to themselves or others may be suspended from school by the principal following Board policies for all students.

Following each such suspension, the principal shall contact the director of special education.

Such suspensions must be for a definite period of time, not longer than 10 days. Such suspensions shall not be considered a change of placement.

Prior to a student's return from suspension, the special education placement team will hold a review of the student's Individual Educational Plan (IEP) to determine its appropriateness and the need for a more restricted or alternate placement. Repeated suspension may not be used as a device to change a student's placement without the procedural safeguards provided in federal law.

In extreme cases in which the district and the parents disagree about the placement of a disruptive special education student, the Board of Education may seek a court injunction allowing the district to place the student over the parents' objection.

None of the above procedures shall prohibit an IEP team from establishing consequences for disruptive or unacceptable behavior as part of the student's IEP. The plan shall be subject to all procedural safeguards established by the IEP process.

Approved: 09/27/90

Expulsion Prevention

District personnel shall enforce provisions of the student code of conduct so that students demonstrating unacceptable behavior and their parents/guardians or legal custodians understand that such behavior shall not be tolerated and shall be dealt with according to the code.

However, it is the belief of the Board that all available alternatives should be explored to help students who are at risk of expulsion before expulsion becomes a necessary step. Expulsion shall be regarded as a punishment of last resort unless a student's behavior would cause imminent harm to others in the school, or when **federal** law or the school's conduct and discipline codes require expulsion. The principal of each school shall work with the professional staff to identify students who are at risk of suspension or expulsion. Among those students who may be at risk are those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive.

The district, working with the student's parent/guardian, shall provide students who are identified as at risk of suspension or expulsion with a plan to provide necessary support services to help them avoid expulsion. Services may include:

1. educational services (tutoring, alternative educational programs or career and technical education programs that provide instruction in the academic areas of reading, writing, mathematics, science and social studies)
2. counseling services
3. drug or alcohol addiction treatment programs, and/or
4. family preservation services.

In some cases, a remedial discipline plan may be the means by which various intervention and prevention services are identified and made available to a student. Support services may be provided through agreements with appropriate local governmental agencies, community-based organizations and institutions of higher education.

The failure of the school district to identify a student for participation in an expulsion prevention program or the failure of such program to remediate a student's behavior shall not be grounds to prevent school personnel from proceeding with appropriate disciplinary measures including but not limited to suspension and/or expulsion.

Student Absences and Excuses

One criteria of a student's success in school is regular and punctual attendance. Frequent absences may lead to poor academic work, lack of social development and possible academic failure. Regular attendance is of utmost importance for school interest, social adjustment and scholastic achievement. No single factor may interfere with a student's progress more quickly than frequent tardiness or absence.

According to state law, it is the obligation of every parent/guardian to ensure that every child under their care and supervision receives adequate education and training and, if of compulsory attendance age, attends school.

Continuity in the learning process and social adaptation is seriously disrupted by excessive absences. In most situations, the work missed cannot be made up adequately. Students who have good attendance generally achieve higher grades, enjoy school more and are more employable after leaving school. For at least these reasons, the Board believes that a student must satisfy two basic requirements in order to earn full class credit: (1) satisfy all academic requirements and (2) exhibit good attendance habits as stated in this policy.

Excused absences

The following shall be considered excused absences:

1. A student who is temporarily ill or injured or whose absence has been prearranged. Prearranged absences shall be approved for appointments or circumstances of a *serious nature only* which cannot be taken care of outside of school hours. Any absences over 6 in the first semester or 9 in the second semester will not be excused without a doctor's note or approval by the principal. Parents will be informed when they telephone to excuse the absence that the absence cannot be excused and they need to set up a meeting with the principal to develop a plan to improve attendance as students approach the definition of "chronically absent" or "habitually truant".
2. A student who is absent for an extended period due to physical, mental or emotional disability.
3. A student who is pursuing a work-study program under the supervision of the school.
4. A student who is attending any school-sponsored activity or activities of an educational nature with advance approval by the administration.
5. A student who is suspended or expelled.

As applicable, the district may require suitable proof regarding the above exceptions, including written statements from medical sources.

If a student is in out-of-home placement (as that term is defined by C.R.S. 22-32-138(1)(e)), absences due to court appearances and participation in court-ordered activities shall be excused. The student's assigned social worker shall verify the student's absence was for a court appearance or court-ordered activity.

Unexcused absences

An unexcused absence is defined as an absence that is not covered by one of the foregoing exceptions. Each unexcused absence shall be entered on the student's record. The parents/guardians of the student receiving an unexcused absence shall be notified orally or in writing by the district of the unexcused absence.

In accordance with law, the district may impose appropriate penalties that relate directly to classes missed while unexcused.

The administration shall develop regulations to implement appropriate penalties. The school administration shall consider the correlation between course failure, truancy and a student dropping out of school in developing these regulations and shall implement research-based strategies to re-engage students with a high number of unexcused absences.

Students and parents/guardians may petition the Board of Education for exceptions to this policy or the accompanying regulations provided that no exception shall be sustained if the student fails to abide by all requirements imposed by the Board as conditions for granting any such exception.

If a student is absent without an excuse signed by the parent/guardian or if the student leaves school or a class without permission of the teacher or administrator in charge, the student shall be considered truant. A "habitual truant" shall be defined as a student of compulsory attendance age who has four total days of unexcused absences from school in any one month or ten total days of unexcused absences during any school year. Absences due to suspension or expulsion shall not be counted in the total of unexcused absences for purposes of defining a student as a "habitual truant."

Chronic absenteeism

When a student has an excessive number of absences, these absences negatively impact the student's academic success. For this reason, a student who has ten or more total absences in a school year, may be identified as "chronically absent" by the principal or designee. Absences due to suspension or expulsion shall not be counted in the total number of absences considered for purposes of identifying a student as "chronically absent."

If a student is identified as "chronically absent," the principal or designee shall develop a plan to improve the student's attendance. The plan shall include best practices and research-based strategies to address the reasons for the student's chronic absenteeism. When practicable, the student's parent/guardian shall participate in the development of the plan.

Nothing herein shall require the principal or designee to identify a student as "chronically absent" prior to declaring the student as a "habitual truant" and pursuing court proceedings against the student and his or her parents/guardians to compel the student's attendance in accordance with state law.

Make-up work

Make-up work will be allowed for all absences with the goal of providing the student an opportunity to keep up with the class and an incentive to attend school. However, work made up for unexcused absences can merit no grade higher than a "C". It is the responsibility of the student to pick up any make-up assignments permitted on the day returning to class. There shall be one day allowed for make-up work for each day of absence. A school principal may make exceptions to any provision of this paragraph when unusual circumstances arise.

Tardiness

Tardiness is defined as the appearance of a student without proper excuse after the scheduled time that a class begins. Because of the disruptive nature of tardiness and the detrimental effect upon the rights of the non-tardy student to uninterrupted learning, appropriate penalties may be imposed for excessive tardiness. Parents/guardians shall be notified of all penalties regarding tardiness.

In an unavoidable situation, a student detained by another teacher or administrator shall not be considered tardy provided that the teacher or administrator gives the student a pass to enter the next class. Teachers shall honor passes presented in accordance with this policy. The provisions of this policy shall be applicable to all students in the district, including those above and below the age for compulsory attendance as required by law.

Truancy

If a student is absent without an excuse signed by the parent/guardian or if the student leaves school or a class without permission of the teacher or administrator in charge, the student shall be considered truant. A "habitual truant" shall be defined as a student of

compulsory attendance age who has four total days of unexcused absences from school in any one month or 10 total days of unexcused absences during any school year. Absences due to suspension or expulsion shall not be counted in the total of unexcused absences for purposes of defining a student as an "habitual truant."

In order to reduce the incidents of truancy, parents/guardians of all students shall be notified in writing at the beginning of each school year of their obligation to ensure that all children of compulsory attendance age attend school. Parents/guardians shall be required to acknowledge in writing awareness of their obligations and to furnish the school with a telephone number or other means of contacting them during the school day.

The school shall establish a system of monitoring individual unexcused absences. When a student fails to report on a regularly scheduled school day and school personnel have received no indication that the parent/guardian is aware of the absence, school personnel or volunteers under the direction of school personnel shall make a reasonable effort to notify the parent/guardian by telephone.

A plan shall be developed for a student who is at risk of being declared habitually truant with the goal of assisting the child to remain in school. When practicable, the student's parent, guardian or legal custodian shall participate with district personnel during the development of the plan. Appropriate school personnel shall make reasonable efforts to meet with the parent, guardian or legal custodian to review and evaluate the reasons for the student's truancy.

In accordance with law, the district may impose appropriate penalties that relate directly to classes missed while truant. Penalties may include a warning, school detention or in-school suspension. Out-of-school suspensions or expulsion shall not be imposed for any truancy. In accordance with law, the district may impose academic penalties that relate directly to classes missed while unexcused. Make-up work will be allowed for all absences with the goal of providing the student an opportunity to keep up with the class and an incentive to attend school. However, work made up for unexcused absences can merit no grade higher than a "C". It is the responsibility of the student to pick up any make-up assignments on the day returning to class. There shall be one day allowed for make-up work for each day of absence. A school principal may make exceptions to any provision of this paragraph when unusual circumstances arise.

The administration shall develop regulations to implement appropriate penalties for truancy. The school administration shall consider the correlation between course failure, truancy and a student dropping out of school in developing these regulations and shall implement research-based strategies to re-engage students with a high number of truancies.

Compulsory Attendance Ages

Every child who has attained the age of six years on or before August 1 of each year and is under the age of 17 is required to attend public school with such exceptions as provided by law. It is the parents' responsibility to ensure attendance.

The courts may issue orders against the child, child's parent, or both compelling the child to attend school or the parent to take reasonable steps to assure the child's attendance. The order may require the parent, child, or both to follow an appropriate treatment plan that addresses problems affecting the child's school attendance and that ensures an opportunity for the child to obtain a quality education.

Nondiscrimination/Equal Opportunity

The Board is committed to providing a safe learning and work environment where all members of the school community are treated with dignity and respect. The schools in the district are subject to all federal and state laws and constitutional provisions prohibiting discrimination on the basis of disability, race, creed, color, sex, sexual orientation, national origin, religion, ancestry or need for special education services. Accordingly, no otherwise qualified student, employee, applicant for employment or member of the public shall be excluded from participation in, be denied the benefits of, or be subjected to unlawful discrimination under any district program or activity on the basis of race, color, national origin, ancestry, creed, religion, sex (which includes marital status), sexual orientation, disability or need for special education services. Discrimination against employees and applicants for employment based on age and **genetic** information is also prohibited in accordance with state and/or federal law.

This policy and regulation shall be used to address all concerns regarding unlawful discrimination and harassment, except those regarding sexual harassment which are addressed in policies GBAA and JBB*.

In keeping with these statements, the following shall be objectives of this school district:

1. To promote the rights and responsibilities of all individuals as set forth in the state and federal constitutions, pertinent legislation and applicable judicial interpretations.
2. To encourage positive experiences in terms of human values for children and adults who have differing personal and family characteristics or who come from various socio-economic, racial and ethnic groups.
3. To consider carefully, in all decisions made which affect the schools, the potential benefits or adverse consequences that those decisions might have on the human relations aspects of all segments of society.
4. To utilize educational experiences to build each individual's pride in the community in which he or she lives.

5. To initiate a process of reviewing all policies and practices of this school district in order to achieve the objectives of this policy to the greatest extent possible.
6. To investigate and resolve promptly any complaints of unlawful discrimination and harassment.
7. To investigate and appropriately discipline staff and students found to be responsible for incidents of harassment or unlawful discrimination in violation of district policy.

Annual notice

The district shall issue a written notice prior to the beginning of each school year that advises students, parents, employees and the general public that the educational programs, activities and employment opportunities offered by the district are offered without regard to race, color, sex (which includes marital status), sexual orientation, religion, national origin, ancestry, creed, disability or need for special education services. With respect to employment practices, the district shall also issue written notice that it does not discriminate on the basis of age or genetic information. The announcement shall also include the name/title, address, email address and telephone number of the person designated to coordinate Title IX and Section 504 and ADA compliance activities.

The notice shall be disseminated to persons with limited English language skills in the person's own language. It shall also be made available to persons who are visually or hearing impaired.

The notice shall appear on a continuing basis in all district media containing general information, including: teachers' guides, school publications, the district's website, recruitment materials, application forms, vacancy announcements, student handbooks, school program notices, summer program newsletters and annual letters to parents.

Harassment is prohibited

Harassment based on a person's race, color, national origin, ancestry, creed, religion, sex (which includes marital status), sexual orientation, disability or need for special education services is a form of discrimination prohibited by state and federal law. Preventing and remedying such harassment in schools is essential to ensure a nondiscriminatory, safe environment in which students can learn, employees can work and members of the public can access and receive the benefit of district facilities and programs. All such harassment, by district employees, students and third parties, is strictly prohibited.

All district employees and students share the responsibility to ensure that harassment does not occur at any district school, on any district property, at any district or school-sanctioned activity or event, or off school property when such conduct has a nexus to the school, or any district curricular or non-curricular activity or event.

For purposes of this policy, harassment is any unwelcome, hostile and offensive verbal, written or physical conduct based on or directed at a person's race, color, national origin, ancestry, creed, religion, sex, sexual orientation, disability or need for special education services that: (1) results in physical, emotional or mental harm, or damage to property; (2) is sufficiently severe, persistent, or pervasive that it interferes with an individual's ability to participate in or benefit from an educational program or activity or creates an intimidating, hostile or threatening environment; or (3) substantially disrupts the orderly operation of the school. Board policy on sexual harassment (GBAA for employees and JBB* for students) will apply to complaints alleging sexual harassment.

Harassing conduct may take many forms, including but not limited to:

1. verbal acts and name-calling;
2. graphic depictions and written statements, which may include use of cell phones or the Internet;
3. other conduct that may be physically threatening, harmful or humiliating.

Reporting unlawful discrimination and harassment

Any student who believes he or she has been a victim of unlawful discrimination or harassment as defined in **Board policy, or who has** witnessed such unlawful discrimination or harassment, shall immediately report it to an administrator, counselor, teacher or superintendent and file a complaint as set forth in the regulation which accompanies this policy.

Any employee, applicant for employment or member of the public who believes he or she has been a victim of unlawful discrimination or harassment, or who has witnessed such unlawful discrimination or harassment, shall file a complaint with either an immediate supervisor or the superintendent.

If the individual alleged to have engaged in prohibited conduct is the immediate supervisor, the complaint shall be made to the superintendent or the Board of Education.

District action

All district employees who witness unlawful discrimination or harassment shall take prompt and effective action to stop it, as prescribed by the district.

The district shall take appropriate action to promptly and impartially investigate allegations of unlawful discrimination and harassment, to end unlawful behavior, to prevent the recurrence of such behavior and to prevent retaliation against the individual(s) who files the complaint and/or any person who participates in the investigation. When appropriate, the district shall take interim measures during the investigation to protect against further unlawful discrimination, harassment or retaliation.

To the extent possible, all reports of unlawful discrimination or harassment will be kept confidential. Students or employees who knowingly file false complaints or give false statements in an investigation shall be subject to discipline, up to and including

suspension/expulsion for students and termination of employment. No student, employee or member of the public shall be subject to adverse treatment in retaliation for any good faith report of harassment under this policy.

Upon determining that incidents of unlawful discrimination or harassment are occurring in particular district settings or activities, the district shall implement measures designed to remedy the problem in those areas or activities.

Any student or employee who engages in unlawful discrimination or harassment shall be disciplined according to applicable Board policies and the district shall take reasonable action to restore lost educational or employment opportunities to the individual(s).

In cases involving potential criminal conduct, the compliance officer shall determine whether appropriate law enforcement officials should be notified.

Notice and training

To reduce **unlawful discrimination and** harassment and ensure a respectful school environment, the administration is responsible for providing notice of this policy to all district schools and departments. The policy and complaint process shall be referenced in student and employee handbooks and otherwise available to all students, staff and members of the public through electronic or hard-copy distribution.

Nondiscrimination/Equal Opportunity (Complaint and Compliance Process)

The district is committed to providing a working and learning environment that is free from unlawful discrimination and harassment. The district shall promptly respond to concerns and complaints of unlawful discrimination and/or harassment; take action in response when unlawful discrimination and/or harassment is discovered; impose appropriate sanctions on offenders in a case-by-case manner; and protect the privacy of all those involved in unlawful discrimination and/or harassment complaints as required by state and federal law. When appropriate, the complaint shall be referred to law enforcement for investigation.

The district has adopted the following procedures to promptly and fairly address concerns and complaints about unlawful discrimination and/or harassment. Complaints shall be submitted in writing.

Definitions

1. "Compliance officer" means an employee designated by the Board to receive complaints of alleged unlawful discrimination and harassment. The compliance officer shall be identified by name/title, address, telephone number and email address. See exhibit AC-E-1. If the designated individual is not qualified or is unable to act as such, the Board shall designate an administrator who shall serve until a successor is appointed.
2. "Aggrieved individual" shall mean a student, the parents or guardians of a student under the age of 18 acting on behalf of a student, an employee of the district, or member of the public who is directly affected by and/or is witness to an alleged violation of Board policies prohibiting unlawful discrimination or harassment.

Compliance officer's duties

The compliance officer shall be responsible for conducting an investigation and coordinating all complaint procedures and processes for any alleged violation of federal or state statute or Board policy prohibiting unlawful discrimination or harassment. The compliance officer's duties shall include providing notice to students, parents/guardians of students, employees and the general public concerning the compliance process, providing training for district staff regarding the prohibition of discrimination/harassment in all district programs, activities and employment practices, disseminating information concerning the forms and procedures for the filing of complaints, ensuring the prompt investigation of all complaints, coordinating hearing procedures, and identifying and addressing any patterns or systemic problems that arise during the review of complaints. The compliance officer may delegate any or all of the foregoing responsibilities as necessary and/or appropriate under the circumstances.

Complaint procedure

An aggrieved individual is encouraged to promptly report the incident as provided in Board policy and this regulation. All reports received by teachers, counselors, principals or other district employees shall be promptly forwarded to the compliance officer. If the compliance officer is the individual alleged to have engaged in the prohibited conduct, the complaint shall be forwarded to the Board of Education.

Any aggrieved individual may file with the compliance officer a complaint charging the district, another student or any school employee with unlawful discrimination or harassment. Complaints may be made orally or in writing. Persons who wish to file a written complaint shall be encouraged to use the form in AC-E-2.

All complaints shall include a detailed description of the alleged events, the dates the alleged events occurred and names of the parties involved, including any witnesses. The complaint shall be made as soon as possible after the incident.

The compliance officer shall confer with the aggrieved individual and/or the alleged victim of the unlawful discrimination or harassment as soon as is reasonably possible, in order to obtain a clear understanding of the basis of the complaint.

Following the initial meeting with the aggrieved individual and/or alleged victim, the compliance officer shall attempt to meet with the individual alleged to have engaged in the prohibited conduct and, if a student, his or her parents/guardians in order to obtain a response to the complaint. Such person(s) shall be informed of all allegations that, in the compliance officer's judgment, are necessary to achieve a full and accurate disclosure of material information or to otherwise resolve the complaint.

At the initial meetings, the compliance officer shall explain the avenues for informal and formal action, provide a description of the complaint process, and explain that both the victim and the individual alleged to have engaged in prohibited conduct have the right to exit the informal process and request a formal resolution of the matter at any time. The compliance officer shall also explain that whether or not the individual files a written complaint or otherwise requests action, the district is required by law to take steps to correct the unlawful discrimination or harassment and to prevent recurring unlawful discrimination, harassment or retaliation against anyone who makes a report or participates in an investigation. The compliance officer shall also explain that any request for confidentiality shall be honored so long as doing so does not preclude the district from responding effectively to prohibited conduct and preventing future prohibited conduct.

Informal action

If the aggrieved individual and/or the individual alleged to have engaged in the prohibited conduct requests that the matter be resolved in an informal manner and/or the compliance officer believes that the matter is suitable to such resolution, the compliance officer may attempt to resolve the matter informally through mediation, counseling or other non-disciplinary means. If both parties feel a resolution has been achieved through the informal process, then no further compliance action must be taken. No party shall be compelled to resolve a complaint of unlawful discrimination or harassment informally and either party may request an end to an informal process at any time. Informal resolution shall not be used to process complaints against a school employee and shall not be used between students where the underlying offense involves sexual assault or other act of violence.

Formal action

If informal resolution is inappropriate, unavailable or unsuccessful, the compliance officer shall promptly investigate the allegations to determine whether and/or to what extent, unlawful discrimination or harassment has occurred. The compliance officer may consider the following types of information in determining whether unlawful discrimination or harassment occurred:

- a. statements by any witness to the alleged incident,
- b. evidence about the relative credibility of the parties involved,
- c. evidence relative to whether the individual alleged to have engaged in prohibited conduct has been found to have engaged in prohibited conduct against others,
- d. evidence of the aggrieved individual and/or alleged victim's reaction or change in behavior following the alleged prohibited conduct,
- e. evidence about whether the alleged victim and/or aggrieved individual took action to protest the conduct,
- f. evidence and witness statements or testimony presented by the parties involved,
- g. other contemporaneous evidence, and/or
- h. any other evidence deemed relevant by the compliance officer.

In deciding whether conduct is a violation of law or policy, all relevant circumstances shall be considered by the compliance officer, including:

- a. the degree to which the conduct affected one or more student's education or one or more employee's work environment,
- b. the type, frequency and duration of the conduct,
- c. the identity of and relationship between the individual alleged to have engaged in the prohibited conduct and the aggrieved individual and/or alleged victim,
- d. the number of individuals alleged to have engaged in the prohibited conduct and number of victims of the prohibited conduct,
- e. the age of the individual alleged to have engaged in the prohibited conduct and the aggrieved individual and/or alleged victim,
- f. the size of the school, location of the incident and context in which it occurred,
- g. other incidents at the school.

Within 10 school days, the compliance officer shall prepare a written decision with specific factual findings and sanctions or other remedial action, including as appropriate, recommendations to the Board for disciplinary or other action.

To the extent permitted by federal and state law, all parties, including the parents/guardians of all students involved, shall be notified in writing by the superintendent of the final outcome of the investigation and all steps taken by the district.

Hearing procedure

For allegations under Section 504 and as otherwise required by law, the aggrieved individual may request a hearing. This hearing procedure will not address guilt or innocence or disciplinary consequences which shall instead be governed by the Board's discipline

policies and procedures.

The hearing shall be informal. A student shall be entitled to be represented by his/her parent or by an attorney. An employee shall be entitled to be represented by an attorney or other representative of his/her choice. The complainant may appear at the hearing and shall be entitled to present testimony and other evidence. Formal rules of evidence shall not apply. The compliance officer or designee may represent the district at the hearing and shall likewise be entitled to present testimony and other evidence. The hearing shall be closed to the public.

Within 10 school days after the hearing, the hearing officer shall issue a written decision based upon evidence presented at the administrative hearing, including any remedial or corrective action deemed appropriate. Remedial actions shall include measures designed to stop the unlawful discrimination or harassment, correct its negative impact on the affected individual, ensure that the conduct does not recur, and restore lost educational opportunities.

Any party not satisfied with a decision made by the superintendent may present his/her concerns to the Board. Any action taken by the Board shall be final.

Nothing contained herein shall be interpreted to confer upon any person the right to a hearing independent of a Board policy, administrative procedure, statute, rule, regulation or agreement expressly conferring such right. This process shall apply, unless the context otherwise requires and unless the requirements of another policy, procedure, statute, rule, regulation or agreement expressly contradicts with this process, in which event the terms of the contrary policy, procedure, law, rule, regulation or agreement shall govern.

Sexual Harassment

The district is committed to a learning and working environment that is free from sexual harassment. Sexual harassment is recognized as a form of sex discrimination and thus a violation of the laws which prohibit sex discrimination.

It shall be a violation of policy for any member of the district staff to harass another staff member or student through conduct or communications of a sexual nature. Any conduct of a sexual nature directed toward students by teachers or others, to whom this policy applies, shall be presumed to be unwelcome. Sexual harassment committed by an employee of the district in the course of employment shall be deemed a breach of duty, and as such, shall subject the offending employee to disciplinary action. This policy similarly applies to non-employee volunteers or any other persons who work subject to the control of school authorities.

Sexual harassment prohibited

For purposes of this policy, unwelcome sexual advances, requests for sexual favors, or other unwelcome conduct of a sexual nature constitutes sexual harassment if:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of a person's employment or educational development.
2. Submission to or rejection of such conduct by an individual is used as the basis for employment or education decisions affecting such individual.
3. Such conduct has the purpose or effect of unreasonably interfering with an individual's work or educational performance or creating an intimidating, hostile or offensive working or educational environment.

The prohibition against sexual harassment applies whether the harassment is between people of the same or different gender.

Sexual harassment as defined above may include but is not limited to:

1. Sex-oriented verbal "kidding," abuse or harassment.
2. Pressure for sexual activity.
3. Repeated remarks to a person with sexual implications.
4. Unwelcome touching, such as patting, pinching or constant brushing against another's body.
5. Suggesting or demanding sexual involvement, accompanied by implied or explicit threats concerning one's grades, employment status or similar personal concerns.
6. Sexual violence.

Reporting, investigation and sanctions

It is the express desire of the Board to encourage victims of, or witnesses to, sexual harassment to report such claims through the district's complaint process (AC-R).

Employees who feel that their superiors are conditioning promotions, increases in wages, continuation of employment, or other terms or conditions of employment upon agreement to unwelcome conduct of a sexual nature, are encouraged to report these conditions to the appropriate administrator or to the district's compliance officer.

All reports of sexual harassment received by any district employee shall be promptly forwarded to the compliance officer (AC-E). The compliance officer shall ensure that every complaint is promptly investigated and responded to as set forth in the district's complaint and compliance process (AC-R). No reprisals or retaliation shall be allowed to occur as a result of the good faith reporting of charges of

sexual harassment. Requests for confidentiality shall be honored so long as doing so does not preclude the district from responding effectively to the harassment and preventing such conduct in the future.

Any employee found to have engaged in sexual harassment shall be subject to sanctions, including, but not limited to, warning or reprimand, suspension, or termination, subject to applicable procedural requirements. Conduct of a sexual nature directed toward students shall, in appropriate circumstances, be reported as child abuse for investigation by appropriate authorities in conformity with policy JLF.

Filing of a complaint or otherwise reporting sexual harassment shall not reflect upon the individual's status or affect future employment or work assignments. All matters involving sexual harassment complaints shall remain confidential to the extent possible.

Concurrent Enrollment

The Board believes that students who wish to pursue postsecondary level work while in high school should be permitted to do so. In accordance with this policy and accompanying regulation, high school students may receive course credit toward the fulfillment of high school graduation requirements for successful completion of approved postsecondary courses offered by institutions of higher education.

This policy and accompanying regulation do not apply to students seeking to enroll in postsecondary courses pursuant to the Accelerating Students through Concurrent Enrollment (ASCENT) program or a "dropout recovery program" pursuant to the Concurrent Enrollment Programs Act (the Act). Students seeking to enroll in the ASCENT program or a dropout recovery program shall work with district administrators and meet the Act's applicable requirements.

Qualified students seeking to enroll in postsecondary courses at the district's expense and receive high school credit for such courses shall follow the procedure accompanying this policy.

Academic credit

Academic credit granted for postsecondary courses successfully completed by a qualified student shall count as high school credit toward the Board's graduation requirements, unless such credit is denied.

High school credit shall be denied for postsecondary courses that do not meet or exceed the district's **academic** standards. High school credit shall also be denied for a postsecondary course substantially similar to a course offered by the district, unless the qualified student's enrollment in the postsecondary course is approved due to a scheduling conflict or other reason deemed legitimate by the district. Concurrent enrollment is not available for summer school.

Agreement with institution of higher education

When a qualified student seeks to enroll in postsecondary courses at an institution of higher education and receive high school credit for such courses, the district and the participating institution shall enter into a written cooperative agreement in accordance with the Act.

Payment of tuition

The district **may** pay the tuition for up to 6 credit hours of postsecondary courses successfully completed by a qualified student and for which the qualified student receives high school credit.

The tuition paid by the district for the qualified student's successful completion of an approved postsecondary course shall be in accordance with the Act and the district's cooperative agreement with the institution of higher education. The institution of higher education may charge additional tuition and/or associated fees to the qualified student or the student's parent/guardian in addition to the tuition paid by the district.

Prior to paying the tuition for any qualified student, the district shall require the student and student's parent/guardian to sign an agreement stating if the student fails or otherwise does not complete the postsecondary course for any reason without consent of the principal of the high school in which the student is enrolled, the student and/or the student's parent/guardian shall repay the amount of tuition paid by the district on the student's behalf.

Transportation

The district shall not provide or pay for the qualified student's transportation to the institution of higher education.

Sexual Harassment

The Board recognizes that sexual harassment can interfere with a student's academic performance and emotional and physical well-being and that preventing and remedying sexual harassment in schools is essential to ensure a nondiscriminatory, safe environment in which students can learn. In addition, sexual harassment is recognized as a form of sex discrimination and thus is a violation of the laws that prohibit sex discrimination, as addressed in Board policy AC.

District's commitment

The district is committed to maintaining a learning environment that is free from sexual harassment. It shall be a violation of policy for any staff member to harass students or for students to harass other students through conduct or communications of a sexual nature or to retaliate against anyone that reports sexual harassment or participates in a harassment investigation.

The district shall investigate all indications, informal reports and formal grievances of sexual harassment by students, staff or third-parties and appropriate corrective action shall be taken. Corrective action includes taking all reasonable steps to end the harassment, to make the harassed student whole by restoring lost educational opportunities, to prevent harassment from recurring and to prevent retaliation against anyone who reports sexual harassment or participates in a harassment investigation.

Sexual harassment prohibited

Unwelcome sexual advances, requests for sexual favors, or other verbal, non-verbal or physical conduct of a sexual nature may constitute sexual harassment, even if the harasser and the student being harassed are the same sex and whether or not the student resists or submits to the harasser, when:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of a student's participation in an education program or activity.
2. Submission to or rejection of such conduct by a student is used as the basis for education decisions affecting the student.
3. Such conduct is sufficiently severe, persistent or pervasive such that it limits a student's ability to participate in or benefit from an

education program or activity or it creates a hostile or abusive educational environment. For a one-time incident to rise to the level of harassment, it must be severe.

Any conduct of a sexual nature directed by a student toward a staff member or by a staff member to a student is presumed to be unwelcome and shall constitute sexual harassment.

Acts of verbal or physical aggression, intimidation or hostility based on sex, but not involving conduct of a sexual nature may also constitute sexual harassment.

Sexual harassment as defined above may include, but is not limited to:

1. sex-oriented verbal "kidding," abuse or harassment,
2. pressure for sexual activity,
3. repeated remarks to a person with sexual implications,
4. unwelcome touching, such as patting, pinching or constant brushing against the body of another,
5. suggesting or demanding sexual involvement, accompanied by implied or explicit threats concerning one's grades or similar personal concerns,
6. sexual violence.

Reporting, investigation and sanctions

Students are encouraged to report all incidences of sexual harassment to a teacher, counselor or principal in their school building and file a complaint, through the district's complaint and compliance process (AC-R). All reports and indications from students, district employees and third parties shall be forwarded to the compliance officer (AC-E-1).

If the individual alleged to have engaged in prohibited conduct is the person designated as the compliance officer, the complaint shall be made to the Board of Education who shall designate an alternate compliance officer to investigate the matter.

All matters involving sexual harassment reports shall remain confidential to the extent possible as long as doing so does not preclude the district from responding effectively to the harassment or preventing future harassment. Filing of a complaint or otherwise reporting sexual harassment shall not reflect upon the individual's status or affect grades.

In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, the nature of the conduct and the context in which the alleged conduct occurred shall be investigated.

Any student found to have engaged in sexual harassment shall be subject to discipline, including, but not limited to, being placed under a remedial discipline plan, suspension or expulsion, subject to applicable procedural requirements and in accordance with applicable law. Conduct of a sexual nature directed toward students shall, in appropriate circumstances, be reported as child abuse for investigation by appropriate authorities in conformity with policy JLF.

Notice and training

Notice of this policy shall be circulated to all district schools and departments and incorporated in all student handbooks.

All students and district employees shall receive periodic training related to recognizing and preventing sexual harassment. District employees shall receive additional periodic training related to handling reports of sexual harassment.

The standardized immunization document includes a list of required and recommended immunizations and the age at which each immunization should be given.

No student is permitted to attend or continue to attend any school in this district without meeting the legal requirements of immunization against disease unless the student has a valid exemption for health, religious, personal or other reasons as provided by law.

Students who do not submit an up-to-date certificate of immunization or a written authorization signed by one parent/guardian requesting local health officials to administer the immunizations or a valid exemption will be suspended and/or expelled from school according to regulation JLCB-R.

All information distributed to parents/guardians by the district will inform them of their rights to seek an exemption from immunization requirements.

No student may attend school in the district unless the student has presented to the school an up-to-date certificate of immunization or a completed exemption form. *[Note: please refer to current standardized immunization documents developed and updated by the Colorado Department of Public Health and Environment for a list of immunization requirements and recommendations.]* A student shall be exempted from required immunizations only upon submission of:
 - a. certification from a licensed physician that the student's physical condition is such that immunization would endanger the student's life or health or is otherwise medically contraindicated due to other medical conditions.
 - b. a statement signed by the parent/guardian or the emancipated student that the student adheres to a religious belief whose teachings are opposed to immunizations.
 - c. a statement signed by the parent/guardian or the emancipated student that the student holds a personal belief that is opposed to immunizations.

In the event of an outbreak of disease against which immunization is required, no exemption will be recognized and those students will be excluded from school.
2. The district will provide upon request an immunization reporting form. The school nurse is responsible for seeing that required information is included on the form and transferred to an official certificate of immunization as required.
3. If there is a failure to comply with the immunization requirements, the school nurse will personally notify the parent/guardian or emancipated student. Such notification will be accomplished either by telephone or in person. If this is not possible, contact will be by mail. Emancipated students must be contacted directly rather than through their parents/guardians.

The parent/guardian or emancipated student will be notified of the following:

 - a. that up-to-date immunizations are required under Colorado law.
 - b. that within fourteen (14) days of notification, the parent/guardian must submit either an authorization for administration of the immunization by health officials or a valid exemption or documentation to the school showing that the next required immunization has been given and a written plan for completion of all required immunizations.
 - c. that if the required documentation is not submitted within fourteen (14) days of notification or if the student begins but does not continue or complete the written plan, the student will be suspended or expelled.
4. A student who fails to comply will be suspended by the principal for up to five days and notice of the suspension sent to the Health Department.
5. If no certificate of immunization is received during the period of suspension, the superintendent will institute proceedings for expulsion.
6. Any suspension or expulsion under this policy will terminate automatically upon compliance.
7. Record of any such suspension or expulsion will be contained in the student's health file, with an appropriate explanation—not in the student's disciplinary file.

Any student expelled for failure to comply with the immunization requirements will not be included in calculating the dropout rate, but will be included in the annual report to the State Board of Education.

Students in out-of-home placements

The following procedure shall apply to students in out-of-home placements, as that term is defined by C.R.S. 22-32-138(1)(e).

Unless the district or school is otherwise authorized to deny enrollment to a student in out-of-home placement, the district or school shall enroll the student regardless of whether the district or school has received the student's immunization records. Upon enrolling the student, the school shall notify the student's legal guardian that unless the school receives the student's certificate of immunization or a written authorization for administration of immunizations within fourteen (14) days after the student enrolls, the school shall suspend the student until such time as the school receives the certificate of immunization or authorization.

Administering Medicines to Students

School personnel shall not administer prescription or nonprescription medications to students unless appropriate administration cannot reasonably be accomplished outside of school hours and the student's parent/guardian is not available to administer the medication during the school day.

Medication may be administered to students by school personnel whom a registered nurse has trained and delegated the task of administering such medication. For purposes of this policy, the term "medication" includes both prescription medication and nonprescription medication. The term "nonprescription medication" includes but is not limited to over-the-counter medications, homeopathic and herbal medications, vitamins and nutritional supplements. Medication may be administered to students by the school nurse or other school designee only when the following requirements are met:

2. The school shall have received written permission to administer the medication from the student's health care practitioner with prescriptive authority under Colorado law.
3. The school shall have received written permission from the student's parent/ guardian to administer the medication to the student.
4. The parent/guardian shall be responsible for providing all medication to be administered to the student.

Self-administration of medication for asthma, allergies or anaphylaxis

A student with asthma, a food allergy, other severe allergies, or a related, life-threatening condition may possess and self-administer medication to treat the student's asthma, food or other allergy, anaphylaxis or related, life-threatening condition. Self-administration of such medication may occur during school hours, at school-sponsored activities, or while in transit to and from school or a school-sponsored activity. Student possession and self-administration of such medication shall be in accordance with regulation JLCD-R.

Authorization for a student to possess and self-administer medication to treat the student's asthma, food or other allergy, anaphylaxis or other related, life-threatening condition may be limited or revoked by the school principal after consultation with the school nurse and the student's parent/guardian if the student demonstrates an inability to responsibly possess and self-administer such medication.

Student possession, use, distribution, sale or being under the influence of medication inconsistent with this policy shall be considered a violation of policy JICH, Drug and Alcohol Use by Students and may subject the student to disciplinary consequences, including suspension and/or expulsion, in accordance with policy JICH.

Students with Food Allergies

The Board recognizes that many students are being diagnosed with potentially life-threatening food allergies. To address this issue and meet state law requirements concerning the management of food allergies and anaphylaxis among students, the Board sets forth the following requirements.

Health care plan

The school nurse, or a school administrator in consultation with the school nurse, shall develop and implement a health care plan (plan) for each student with a diagnosis of a potentially life-threatening food allergy. The plan shall address communication between the school and emergency medical services, including instructions for emergency medical responders. If a student qualifies as a student with a disability in accordance with federal law, the student's Section 504 plan, Individualized Education Program (IEP), and/or other plan developed in accordance with applicable federal law shall meet this requirement.

Reasonable accommodations

Reasonable accommodations shall be made to reduce the student's exposure to agents that may cause anaphylaxis within the school environment. If a student qualifies as a student with a disability in accordance with federal law, the student's Section 504 plan, Individualized Education Program (IEP), and/or other plan developed in accordance with applicable federal law shall meet this requirement.

Access to emergency medications

Emergency medications for treatment of the student's food allergies or anaphylaxis shall be kept in a secure location accessible to designated school staff. Whenever possible and in a timely fashion, the student's parent/legal guardian shall supply the school with the medication needed for treatment of the student's food allergies or anaphylaxis, unless the student is authorized to self-carry such medication in accordance with Board policy JLCD, Administration of Medications.

Staff training

Principal or equivalent school administrator, in consultation with the school nurse, shall determine the appropriate recipients of emergency anaphylaxis treatment training, which shall include those staff directly involved with a student who has a known food allergy during the school day. At a minimum, the training shall prepare staff to have a basic understanding of food allergies and the importance of reasonable avoidance of agents that may cause anaphylaxis, the ability to recognize symptoms of anaphylaxis, and the ability to respond appropriately when a student suffers an anaphylactic reaction. The training shall also include instruction in the administration of self-injectable epinephrine.

For purposes of this policy, "eligible student" means a student 18 years of age or older or an emancipated minor. Any survey, assessment, analysis or evaluation administered or distributed by a school to students shall be subject to applicable state and federal laws protecting the confidentiality of student records.

Survey, assessment, analysis or evaluation for which consent is required

Except as otherwise permitted by law, students shall not be required to submit to a survey, assessment, analysis, or evaluation that is intended to reveal information, whether the information is personally identifiable or not, without prior written consent of the parent/guardian or eligible student, if that survey, assessment, analysis, or evaluation reveals information in the following areas ("protected information"):

School personnel responsible for administering any such survey, assessment, analysis or evaluation shall give written notice at least

1. records or information that may be examined and required in the survey, assessment, analysis or evaluation
2. the means by which the records or information shall be examined, reviewed, or disseminated

6. a method by which a parent/guardian can grant or deny permission to access or examine the records or information

These notice provisions also apply to any survey, analysis or evaluation funded by the U.S. Department of Education.

Exceptions to policy

Nothing in this section of the policy shall:

1. prevent a student who is working under the supervision of a journalism teacher or sponsor from preparing or participating in a survey, assessment, analysis or evaluation without obtaining consent as long as such participation is not otherwise prohibited by law
2. be construed to prevent a district employee from reporting known or suspected child abuse or neglect as required by state law
3. be construed to limit the ability of a health professional that is acting as an agent of the school district to evaluate an individual child
4. be construed to require parental notice or consent for a survey, assessment, analysis or evaluation related to educational products or services for or to students or educational institutions. These products and services include, but are not limited to, the following:
 - college or other postsecondary education recruitment or military recruitment activities
 - book clubs, magazines and programs providing access to low-cost literary products
 - curriculum and instructional materials used by district schools
 - tests and assessments used by district schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students
 - the sale by students of products or services to raise funds for school-related or education-related activities
 - student recognition programs
5. be construed to require parental notice or consent for assessments used to collect evidence of what a student knows and is able to do and to measure a student's academic progress toward attaining a content standard
6. limit the ability of the district to administer a suicide assessment or threat assessment (with the understanding that parents/guardians will be notified that such an assessment was administered.)

Surveys, assessment, analysis or evaluation for marketing purposes

Parents/guardians and eligible students shall receive notice and have the opportunity to opt a student out of activities involving the collection, disclosure or use of personal information collected from the student for the purpose of marketing or selling that information or otherwise providing the information to others for that purpose.

Annual notice

At the beginning of each academic year, the district shall inform parents/guardians and eligible students that the parent/guardian or eligible student has the right to consent before students are required to submit to a survey that concerns one or more of the protected areas and to opt out of the following:

1. activities involving the collection, disclosure or use of personal information collected from students for the purpose of marketing or for selling that information;
2. the administration of any protected information survey; or
3. any non-emergency, invasive physical examination or screening (other than a hearing, vision or scoliosis screening) that is:
 - required as a condition of attendance;
 - administered by the school and scheduled by the school in advance; and
 - not necessary to protect the immediate health and safety of the student or of other students.

Psychiatric/psychological/behavior testing methods or procedures

School personnel are prohibited under state law from recommending or requiring the use of psychotropic drugs for students. They are also prohibited from testing or requiring testing for a student's behavior without giving notice to the parent/guardian describing the recommended testing and how any test results will be used. Prior to conducting any such testing, school personnel shall obtain written permission from the parent/guardian or eligible student in accordance with applicable law.

School personnel are encouraged to discuss concerns about a student's behavior with the parent/guardian, and such discussions may include a suggestion that the parent/guardian speak with an appropriate health care professional regarding any behavior concerns that school personnel may have. Only those persons appropriately certified or licensed may expose students to any psychiatric or psychological method or procedure for the purpose of diagnosis, assessment or treatment of any emotional, behavioral or mental disorder or disability. Such methods or procedures may only be performed after acquiring written permission from a student's parent or guardian, or from the student in those circumstances in which federal or state law allows the student to obtain such services in confidence or without prior notice to the parent/guardian.

Licensed school personnel are encouraged to be knowledgeable about psychiatric or psychological methods and procedures but shall not be involved in any diagnosis, assessment or treatment of any type of mental disorder or disability unless appropriately certified. In accordance with state law, school personnel including certified school psychologists are not authorized to practice psychotherapy or utilize any psychiatric or psychological procedure outside of or beyond their area of training, experience or competence.

Ordinary classroom instruction, activities and techniques involving the approved curriculum that teach about psychological or psychiatric methods or procedures shall be permissible and considered outside the scope of this policy. It is understood that there is a significant difference between practicing therapy and providing activities that may be therapeutic in nature. Any teacher who questions whether a planned activity is one involving psychiatric or psychological methods or procedures for which the teacher may not be properly certified or licensed shall consult with the school principal.

Special education evaluation

The giving of parental permission for evaluation or re-evaluation of a student with disabilities and any required consent to the provision of special education services to a student with disabilities is governed by state and federal law and is outside the scope of this policy.

The district will develop and adopt policies, in consultation with parents/guardians, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes.

The district will directly notify parents/guardians of these policies at least annually at the start of each school year and after any substantive changes. The district will also directly notify, such as through U.S. Mail or electronic mail, parents/guardians of students who are scheduled to participate in the specific activities or surveys noted above and will provide an opportunity for the parent/guardian to opt his or her child out of participation in the specific activity or survey. Student Fees, Fines and Charges

Students shall not be charged an instructional fee as a condition of enrollment in school or as a condition of attendance in any class that is considered part of the academic portion of the district's educational program except tuition when allowed by law. However, the district may require students to pay textbook fees, fees for expendable materials and other miscellaneous fees as more fully set forth in this policy.

All student fees and charges shall be adopted by the Board. The fee shall remain in place until modified or removed by Board resolution. All student fees adopted by the Board shall be used for the purposes set forth in the motion and shall not be spent for any other purpose.

When publicizing any information concerning any fee authorized to be collected by this policy, the school shall specify whether the fee is voluntary or mandatory and the specific activity from which the student will be excluded if the fee is not paid.

Among the fees which the Board may authorize are the following:

Technology

Students may be asked to pay a non-refundable fee for the use of one-to-one technology devices to cover insurance and other costs associated with the device.

Textbooks and Library Resources

Textbooks shall be provided on a loan basis. Students may be asked to pay a nonrefundable rental fee reasonably related to the actual cost of some or all of the textbooks provided for the student. The rental fee and corresponding depreciation schedule shall be adopted by the Board prior to the textbook's introduction into the classroom. No rental fee will be assessed for textbooks and workbooks used in the classroom for reference.

It is expected that students shall return textbooks and library resources to the school in good condition except for ordinary wear.

Students shall be assessed fines for

lost, damaged or defaced books (including those checked out from the library), materials or equipment. The fines will be for the amount of the loss. In computing a fine, 20 percent of the original cost of a book or library resource will be deducted for each year it has been used.

If the school district has made a reasonable effort to obtain payment for lost or damaged textbooks or library resources to no avail, the district may then withhold the diploma, transcript or grades of any student who fails to return or replace such textbooks or library resources at the end of the semester or school year. If a student is graduating, the district may deny the privilege of participation in the graduation ceremony if the student has failed to return or replace a textbook or library resource by the date of the ceremony.

Alternative payment methods, such as installment plans or school service, shall apply to students who are unable to pay.

A student shall not be refused use of textbooks based on failure to pay the required fees.

Fees for expendable supplies and materials

Teachers shall determine a basic course for each class which can be completed with materials furnished by the school. However students may be charged a fee for expendable supplies and materials used in the course. Fees for expendable supplies and materials shall relate directly to the actual cost of providing these materials to the student. Students shall be required to pay for materials that go into shop, crafts or art projects that are above the basic requirements for the course and are to be retained by the student.

Miscellaneous fees

Students may be asked to pay miscellaneous fees and expenses on a voluntary basis as a condition of attending, participating in, or obtaining materials/clothing/ equipment used in a school-sponsored activity or program not within the academic portion of the educational program.

Rental fees for the use of items such as choral robes, band uniforms and school-owned instruments shall be approved by the Board upon the recommendation of the superintendent.

Students participating in activities which are not required by the teacher or used in the determination of a grade may be required to pay charges covering the cost of the activity. Such charges may include but are not limited to admission fees, food costs and transportation costs on activity trips. However, it is incumbent upon the teacher and principal to make every effort to be sure no student is denied the right to participate in trips or other enrichment activities because of lack of funds.

The district may impose and collect a fee for the payment of excess transportation costs in accordance with state law. Only those students who use the district's transportation services shall be required to pay any transportation fee.

Waiver of fees

All fees, fines and charges for textbooks and expendable supplies and materials required for classes within the academic portion of the educational program and any transportation fee shall be waived for indigent students. For purposes of determining if a student is able to pay, an indigent student is defined as any child who is eligible for a free or reduced price lunch under the federal poverty income guidelines.

All fees for textbooks, expendable supplies and materials, and miscellaneous fees shall be waived for students in out-of-home placements, as that term is defined by C.R.S 22-32-138 (1)(e).

Fee schedule

The district shall prepare and make available upon request a complete list of student fees, describing how the amount of each fee was derived and the purpose of each fee.

Parents shall be informed on the fee schedule or otherwise regarding how to apply for a waiver of fees, whether fees are voluntary or mandatory and the specific activity from which the student will be excluded if the fee is not paid. Students qualifying for a fee waiver will receive it without unnecessary embarrassment or public exposure of their need.

Student Records/Release of Information on Students

In recognition of the confidential nature of student education records, no person or agency may access student education records without prior written consent from the student's parent/guardian or the eligible student, except as set forth in law and this policy.

The superintendent or designee shall provide for the proper administration of student records in accordance with law, including the implementation of safeguard measures or procedures regarding access to and disclosure of student education records.

Content and custody of student education records

The principal is the official custodian of records in his or her building.

Student education records in all formats and media, including photographic and electronic, are those records that relate directly to a student. Student education records may contain, but will not necessarily be limited to, the following information: identifying data; academic work completed; level of achievement (grades, standardized achievement test scores); attendance data; scores on standardized intelligence, aptitude and psychological tests; interest inventory results; health and medical information; family background information; teacher or counselor ratings and observations; reports of serious or recurrent behavior patterns and any individualized education program (IEP).

Student education records do not include records maintained by a law enforcement unit of the school or school district that are created by that unit for the purpose of law enforcement.

Nothing in this policy shall prevent administrators, teachers or staff from disclosing information derived from personal knowledge or observation and not derived from a student's education records.

In accordance with applicable law, requests for inspection and review of student education records, requests for copies of such records, and disclosure of personally identifiable information therein shall be maintained as a part of each student's education record.

School personnel shall use reasonable methods to authenticate the identity of parents, students, school officials, and any other party to whom they disclose student education records. Authentication of identity prior to disclosure of electronic records through passwords or other security measures shall be required.

Access to student education records by parents and eligible students

A parent/guardian ("parent") has the right to inspect and review their child's education records, if the student is under 18 years of age. If a student is 18 years old or older ("eligible student"), the student may inspect or review his or her own education records and provide written consent for disclosure of such records and personally identifiable information therein. However, the parent is also entitled to access his/her child's education records, despite the lack of written consent from the eligible student, if the eligible student is a dependent for federal income tax purposes or the disclosure is in connection with a health or safety emergency. Access to student education records by parents or eligible students shall be in accordance with the regulation accompanying this policy.

Request to amend student education records

A parent or eligible student may ask the district to amend a student education record they believe is inaccurate, misleading or otherwise violates the privacy rights of the student. Student grades cannot be challenged pursuant to this policy. Requests to amend a student education record shall be in accordance with the regulation accompanying this policy.

Disclosure with written consent

Whenever the district is required by law or policy to seek written consent prior to disclosing personally identifiable information from a student's education record, the notice provided to the parent or eligible student shall contain the following:

- a. The specific records to be disclosed;
- b. The specific reasons for such disclosure;
- c. The specific identity of any person, agency or organization requesting such information and the intended uses of the information;
- d. The method or manner by which the records will be disclosed; and
- e. The right to review or receive a copy of the records to be disclosed.

The parent's or eligible student's consent shall only be valid for the specific instance for which it was given. Consent for a student to participate in any course, school activity, special education program or in any other school program shall not constitute the specific written consent required by this policy.

All signed consent forms shall be retained by the school district.

Disclosure without written consent

The district may disclose student education records or personally identifiable information contained therein without written consent of the parent or eligible student if the disclosure meets one of the following conditions:

1. The disclosure is to a school official having a legitimate educational interest in the student education record or the personally identifiable information contained therein. In accordance with law, only those school officials who have a legitimate educational interest as described in this policy shall be permitted access to specific student education records.
 - a. For purposes of this policy, a "school official" is a person employed by the district as an administrator, supervisor, teacher or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board of Education; a person or company with whom the district has outsourced services or functions it would otherwise use its own employees to perform (such as an attorney, auditor, consultant or therapist); a parent or student serving on an official committee, such as a disciplinary or grievance committee; or a parent, student or other volunteer assisting another school official in performing his or her tasks.
 - b. A school official has a "legitimate educational interest" if disclosure to the school official is: (1) necessary for that official to perform appropriate tasks that are specified in his or her position description or by a contract agreement; (2) used within the context of official district business and not for purposes extraneous to the official's areas of responsibility; (3) relevant to the accomplishment of some task or to a determination about the student; and (4) consistent with the purposes for which the data are maintained.
2. The disclosure is to officials of another school, school system or postsecondary institution that has requested the records and in which the student seeks or intends to enroll, or has enrolled. Any records sent during the student's application or transfer period may be supplemented, updated or corrected as necessary.
3. The disclosure is to authorize representatives of the Comptroller General of the United States, the Attorney General of the United States, the Secretary of the U.S. Department of Education, or state and local educational authorities.
4. The disclosure is in connection with a student's application for, or receipt of, financial aid.
5. The disclosure is to state and local officials and concerns the juvenile justice system's ability to effectively serve, prior to adjudication, the student whose records are disclosed as provided under the Colorado Open Records Act and Colorado Children's Code. Such records and personally identifiable information shall only be disclosed upon written certification by the officials that the records and information will not be disclosed to any other party, except as specifically authorized or required by law, without the prior written consent of the parent or eligible student.
6. The disclosure is to organizations conducting studies for, or on behalf of, educational agencies or institutions to develop, validate or administer predictive tests; to administer student aid programs; or to improve instruction.
7. The disclosure is to accrediting organizations for accrediting functions.
8. The disclosure is to the parent of an eligible student and the student is a dependent for IRS tax purposes.
9. The disclosure is in connection with an emergency, if knowledge of the information is necessary to protect the health or safety of the student or others.
10. The disclosure is to comply with a judicial order or lawful subpoena. The district shall make a reasonable effort to notify the parent or eligible student prior to complying with the order or subpoena **unless**:
 - a. The court order or subpoena prohibits such notification; or
 - b. The parent is a party to a court proceeding involving child abuse and neglect or dependency matters and the court order is issued in the context of that proceeding.
11. The disclosure is to the Secretary of Agriculture, or authorized representative from the USDA Food and Nutrition Service or contractors acting on behalf of the USDA Food and Nutrition Service, for the purposes of conducting program monitoring, evaluations and performance measurements of state and local educational agencies receiving funding or providing benefits of program(s) authorized under the National School Lunch Act or Child Nutrition Act.
12. The disclosure is to an agency caseworker or other representative of a state or local child welfare agency or tribal organization who has the right to access the student's case plan because such agency or organization is legally responsible, in accordance with applicable state or tribal law, for the care and protection of the student.
13. The disclosure is of "directory information" as defined by this policy.

Disclosure of directory information

Directory information may also be disclosed without written consent of the parent or eligible student. "Directory information" means information contained in a student's education record that would not generally be considered harmful or an invasion of privacy if disclosed. Directory information which may be released includes but is not limited to the student's name, email address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors and awards received, the most recent previous education agency or institution attended by the student, and other similar information. Directory information also includes a student identification number or other unique personal identifier displayed on a student ID badge or used by the student to access or communicate in electronic systems, but only if the identifier cannot be used to gain access to student education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a password known only by the authorized user.

Student telephone numbers and addresses shall not be disclosed pursuant to this section.

NOTE: FERPA requires the district to notify parents and eligible students of their right to refuse disclosure of directory information. 34 C.F.R. 99.37(a)(2). The district must specify a "period of time" for parents/eligible students to tell the district not to disclose directory information. 34 C.F.R. 99.37(a)(3). The following paragraph meets this "period of time" requirement. The deadline for notification should be a reasonable amount of time (e.g. 2-3 weeks) after school starts to allow the parent/eligible student to determine whether directory information can be disclosed without prior written consent.

The parent or eligible student has the right to refuse to permit the designation of any or all of the categories of directory information if such refusal is received in writing in the office of the principal of the school where the student is in attendance no later than September 15 or the following Monday if September 15 is a Saturday or Sunday.

Disclosure of disciplinary information to school personnel

Sharing of Student Records/Information between School District and State Agencies

It is the Board of Education's intention to utilize all avenues under state law to facilitate the sharing of relevant student records and information when necessary to protect the safety and welfare of school district staff, visitors, students, and the public and to protect property.

The superintendent is directed to develop procedures and a training program for staff consistent with this policy. The procedures shall direct school district personnel to provide and obtain student records and information to/from state agencies, including law enforcement and judicial department agencies, to the extent required or allowed by state and federal law.

Sharing of information by the school district

Disciplinary and attendance information shall only be shared with a criminal justice agency investigating a criminal matter concerning a student enrolled or who will enroll in the school district when necessary to effectively serve the student prior to adjudication. Such information shall only be shared upon written certification by the criminal justice agency that the information will not be disclosed to any other party, except as specifically authorized or required by law, without the prior written consent of the student's parent/guardian.

School personnel who share disciplinary and attendance information concerning a student pursuant to this policy are immune from civil and criminal liability if they act in good faith compliance with state law.

Nothing in this policy shall prevent administrators, teachers or staff from disclosing information derived from personal knowledge or observation and not derived from student's education records.

Information obtained from state agencies

Within the bounds of state law, school district personnel shall seek to obtain such information regarding students as is required to perform their legal duties and responsibilities, including to protect public safety and safety of the student. Such information may be obtained from the judicial department or any state agency that performs duties and functions under the Colorado Children's Code.

School district personnel receiving such information shall use it only in the performance of their legal duties and responsibilities and shall otherwise maintain the confidentiality of all information obtained. School personnel who knowingly violate this provision are subject to disciplinary action pursuant to **Board** policy and to a civil penalty of up to \$1,000.

If such information is shared with another school or school district to which a student may be transferring, it shall only be shared in compliance with the requirements of federal law, including the Family **Educational** Rights and Privacy Act ("FERPA").

When a petition is filed in juvenile court or district court that alleges a student between the ages of 12 to 18 years has committed an offense that would constitute unlawful sexual behavior or a crime of violence if committed by an adult, basic identification information, as defined in state law, along with the details of the alleged delinquent act or offense, is required by law to be provided immediately to the school district in which the juvenile is enrolled.

The information shall be used by the Board of Education to determine whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or school personnel and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel. The Board shall take appropriate disciplinary action, which may include suspension or expulsion, in accordance with the student code of conduct and related policies.

Student Use of the Internet and Electronic Communications

The Internet and electronic communications (email, chat rooms and other forms of electronic communication) have vast potential to support curriculum and student learning. The Board of Education believes they should be used in schools as a learning resource to educate and to inform.

Use of the Internet and electronic communications require students to think critically, analyze information, write clearly, use problem-solving skills and hone computer and research skills that employers demand. Use of these tools also encourages an attitude of lifelong learning and offers an opportunity for students to participate in distance learning activities, ask questions of and consult with experts, communicate with other students and individuals and locate material to meet educational and personal information needs.

The Internet and electronic communications are fluid environments in which students may access materials and information from many sources, including some that may be harmful to students. While it is impossible to predict with certainty what information students might locate or come into contact with, the district shall take reasonable steps to protect students from accessing material and information that is obscene, child pornography or otherwise harmful to minors, as defined by the Board. Students shall take responsibility for their own use of district technology devices to avoid contact with material or information that may be harmful to minors. For purposes of this policy, "district technology device" means any district-owned computer, hardware, software, or other technology that is used for learning purposes and has access to the Internet.

Blocking or filtering obscene, pornographic and harmful information

Technology that blocks or filters material and information that is obscene, child pornography or otherwise harmful to minors, as defined by the Board, shall be installed on all district computers having Internet or electronic communications access. Students shall report access to material and information that is inappropriate, offensive or otherwise in violation of this policy to the supervising staff member. If a student becomes aware of other students accessing such material or information, he or she shall report it to the supervising staff member.

No expectation of privacy

District technology devices are owned by the district and are intended for educational purposes at all times. Students shall have no expectation of privacy when using district technology devices. The district reserves the right to monitor, inspect, copy, review and store (at any time and without prior notice) all usage of district technology devices, including all Internet and electronic communications access and transmission/receipt of materials and information. All material and information accessed/received through district technology devices shall remain the property of the school district.

Unauthorized and unacceptable uses

Students shall use district technology devices in a responsible, efficient, ethical and legal manner.

Because technology and ways of using technology are constantly evolving, every unacceptable use of district technology devices cannot be specifically described in policy. Therefore, examples of unacceptable uses include, but are not limited to, the following.

No student shall access, create, transmit, retransmit or forward material or information:

- that promotes violence or advocates destruction of property including, but not limited to, access to information concerning the manufacturing or purchasing of destructive devices or weapons
- that is not related to district education objectives

- that contains pornographic, obscene or other sexually oriented materials, either as pictures or writings, that are intended to stimulate erotic feelings or appeal to prurient interests in nudity, sex or excretion
- that harasses, threatens, demeans, or promotes violence or hatred against another person or group of persons in violation of the district's nondiscrimination policies
- for personal profit, financial gain, advertising, commercial transaction or political purposes
- that plagiarizes the work of another without express consent
- that uses inappropriate or profane language likely to be offensive to others in the school community
- that is knowingly false or could be construed as intending to purposely damage another person's reputation
- in violation of any federal or state law or district policy, including but not limited to copyrighted material and material protected by trade secret
- that contains personal information about themselves or others, including information protected by confidentiality laws
- using another individual's Internet or electronic communications account without written permission from that individual
- that impersonates another or transmits through an anonymous remailer
- that accesses fee services without specific permission from the system administrator

Security

Security on district technology devices is a high priority. Students who identify a security problem while using district technology devices must immediately notify a system administrator. Students should not demonstrate the problem to other users. Logging on to the Internet or electronic communications as a system administrator is prohibited.

Students shall not:

- use another person's password or any other identifier
- gain or attempt to gain unauthorized access to district technology devices
- read, alter, delete or copy, or attempt to do so, electronic communications of other system users

Any user identified as a security risk, or as having a history of problems with technology, may be denied access to the Internet, electronic communications and/or district technology devices.

Safety

In the interest of student safety and security, the district shall educate students about appropriate online behavior, including cyberbullying awareness and response; and interacting on social networking sites, in chat rooms, and other forms of direct electronic communications.

Students shall not reveal personal information, such as home address or phone number, while using the Internet or electronic communications. Without first obtaining permission of the supervising staff member, students shall not use their last name or any other information that might allow another person to locate him or her. Students shall not arrange face-to-face meetings with persons met on the Internet or through electronic communications.

Vandalism

Vandalism will result in cancellation of privileges and may result in legal action and/or disciplinary action, including suspension and/or expulsion, in accordance with Board policy concerning suspension, expulsion and other disciplinary interventions. Vandalism is defined as any malicious or intentional attempt to harm, destroy, modify, abuse or disrupt operation of any network within the school district or any network connected to the Internet, operation of any form of electronic communications, the data contained on any network or electronic communications, the data of another user, usage by another user, or district technology device. This includes, but is not limited to, the uploading or creation of computer viruses and the use of encryption software.

Unauthorized content

Students are prohibited from using or possessing any software applications, mobile apps or other content that has been downloaded or is otherwise in the user's possession without appropriate registration and payment of any fees.

Assigning student projects and monitoring student use

The district will make reasonable efforts to see that the Internet and electronic communications are used responsibly by students. Administrators, teachers and staff have a professional responsibility to work together to monitor students' use of the Internet and electronic communications, help students develop the intellectual skills needed to discriminate among information sources, to identify information appropriate to their age and developmental levels, and to evaluate and use information to meet their educational goals. Students shall have specifically defined objectives and search strategies prior to accessing material and information on the Internet and through electronic communications.

Opportunities shall be made available on a regular basis for parents to observe student use of the Internet and electronic communications in schools.

All students shall be supervised by staff while using the Internet or electronic communications. Staff members assigned to supervise student use shall have received training in Internet and electronic communications safety and monitoring student use.

Student use is a privilege

Use of the Internet and electronic communications demands personal responsibility and an understanding of the acceptable and unacceptable uses of such tools. Student use of the Internet, electronic communications and district technology devices is a privilege, not a right. Failure to follow the use procedures contained in this policy shall result in the loss of the privilege to use these tools and restitution for costs associated with damages, and may result in legal action and/or disciplinary action, including suspension and/or expulsion, in accordance with Board policy concerning suspension, expulsion and other disciplinary interventions. The school district

may deny, revoke or suspend access to district technology or close accounts at any time.

Students and parents/guardians shall be required to sign the district's Acceptable Use Agreement annually before Internet or electronic communications accounts shall be issued or access shall be allowed.

School district makes no warranties

The school district makes no warranties of any kind, whether express or implied, related to the use of district technology devices, including access to the Internet and electronic communications services. Providing access to these services does not imply endorsement by the district of the content, nor does the district make any guarantee as to the accuracy or quality of information received. The district shall not be responsible for any damages, losses or costs a student suffers in using the Internet and electronic communications. This includes loss of data and service interruptions. Use of any information obtained via the Internet and electronic communications is at the student's own risk.

January 2016

Dear Parents of Kindergarten-12th Grade Students in Colorado Schools (School Year 2016-17):

Immunizations are an important part of our children's and the community's health. Colorado law requires students attending a public, private or parochial school to be immunized against certain vaccine-preventable diseases. **The purpose of this letter is to remind parents about the need for back-to-school immunizations and to provide immunization information.** The chart on page 2 shows which vaccines are **required** for school attendance, along with **recommended** vaccines which provide more protection against vaccine-preventable disease. **There are no changes to the vaccines required from the previous school year.** It is helpful to share this letter with your child's healthcare provider or your local public health agency (LPHA) where your child receives immunizations.

Colorado follows the Centers for Disease Control and Prevention's Advisory Committee on Immunization Practices schedule. This schedule is approved by the American Academy of Pediatrics, the American Academy of Family Physicians and the American College of Obstetricians and Gynecologists. This is the immunization schedule which will best protect your child from vaccine-preventable diseases and is the national standard for health care providers who vaccinate your children. *Please note: In Spring 2016, it is anticipated the Colorado Board of Health will approve a recommendation that will require all students to receive their final doses of DTaP, Polio, MMR and Varicella (chicken pox) vaccine before kindergarten entry and one dose of Tdap vaccine before 6th grade entry.*

Starting **July 1, 2016**, parents/guardians seeking non-medical (religious or personal belief) exemptions for children in kindergarten-12th grade must submit non-medical exemption forms annually. Medical exemptions only need to be submitted once and require the signature of your child's doctor or advanced practice nurse. To submit a non-medical or medical exemption, go to www.colorado.gov/vaccineexemption and follow the instructions. Children with an exemption may be kept out of school during a disease outbreak.

Parents may have questions or want more information about children's immunizations and vaccine safety. Resources for parents about the safety and importance of vaccines are available at: www.ImmunizeForGood.com and www.colorado.gov/cdphe/immunization-education.

Colorado law requires schools to provide school-level immunization and exemption information to the Colorado Department of Public Health and Environment (CDPHE) by December 1, 2016. Immunization and exemption rates for each school will be posted on the CDPHE website as soon as they are verified. Many parents, especially those with children who can't be vaccinated due to a medical issue, may want to know which schools are best protected against vaccine preventable disease.

Please discuss your child's vaccination needs with your child's healthcare provider or LPHA and bring your child's updated immunization records to school each time your child receives an immunization. To find your LPHA or learn about free or low cost vaccines, call the Family Health Line at 1-303-692-2229 or 1-800-688-7777. **For questions about school immunization requirements, please contact your school.**
